Metodologia

The methodology is based on the following learning activities:

- Activities in the classroom directed by the faculty, during the scheduled time during the semester. These activities can be theoretical or practical. Theoretical activities consist of presentations by professor followed by discussions. For proper development of the activity, prior reading of the literature and related materials is required. Practical activities will consist of oral presentations and data collection exercises.

- Activities performed by students under the supervision of the professor. These activities mostly include the elaboration of papers.
- Autonomous activities performed by students, both individually and collectively. Students will organize their time and work. These activities include readings and study of bibliography, data search, preparation of oral presentations and preparation of evaluation activities.
