Use of languages

Principal working language: spanish (spa)
Some groups entirely in English: No
Some groups entirely in Catalan: Yes
Some groups entirely in Spanish: Yes

Prerequisites

Classes are taught in Catalan and/or Castilian. Therefore you must have knowledge of these languages to continue the lessons properly.

Objectives and Contextualisation

The course is integrated into the matter "Journalistic Production". This matter in Journalism Degree consists of the following subjects:

- *Production design expression and press
- *Production and journalistic expression in multimedia and interactive
- *Audiovisual production and expression
- *News on radio and television (our subject)
- *Design and visual composition
- *Photojournalism
- *Documentary
- *Journalistic production platform

The subject within the training block provides the general concepts and theoretical foundations for a news program, both radio and television.

The basics of broadcast journalism in news programs are given.

Skills

- Abide by ethics and the canons of journalism, as well as the regulatory framework governing information.
- Demonstrate a critical and self-critical capacity.
- Generate innovative and competitive ideas in research and professional practice.
- Manage time effectively.
- Relay journalistic information in the language characteristic of each communication medium, in its combined modern forms or on digital media, and apply the genres and different journalistic procedures.
- Research, select and arrange in hierarchical order any kind of source and useful document to develop communication products.
- Respect the diversity and plurality of ideas, people and situations.

- Show leadership, negotiation and team-working capacity, as well as problem-solving skills.
- Use advanced technologies for optimum professional development.

Learning outcomes

1. Be familiar with and professionally use the necessary voice and image recording tools.
2. Demonstrate a critical and self-critical capacity.
3. Generate innovative and competitive ideas in research and professional practice.
4. Identify and distinguish the technical requirements necessary to relay information in the language characteristic of each communication medium (press, audiovisual, multimedia).
5. Manage time effectively.
6. Research, select and arrange in hierarchical order any kind of source and useful document to develop communication products.
7. Respect the diversity and plurality of ideas, people and situations.
8. Show leadership, negotiation and team-working capacity, as well as problem-solving skills.
9. Use advanced technologies for optimum professional development.
10. Use Internet's communication resources properly.
11. Use social responsibility criteria in various information production processes.

Content

News as a fundamental element of audiovisual grills.

Features and concepts:

* Last news on audiovisual information.

* Program.

* Grill.

* Categories.

Radio news programs and television news programs.

* Types of News Programs

* Bulletin

* Daily news programs

* Non-daily News programs

* Monograph

* Talks Shows

* News Magazines

* Hybridization

Methodology

The sessions of the course will be developed through different types of activities, grouped in lectures, seminars and laboratory practice.

Activities

Title	Hours	ECTS	Learning outcomes
Type: Directed			
Laboratory Practice	21	0.84	6, 1, 8, 2, 3, 5, 4, 7, 11, 9
Master Class	15	0.6	6, 1, 2, 3, 4, 7, 11
Seminars	15	0.6	6, 1, 8, 2, 3, 5, 4, 7, 11
Type: Supervised			
Exam	3	0.12	2, 5, 4
Tutorials	3	0.12	1, 8, 2, 5, 4, 11, 9
Type: Autonomous			
Autonomous Work	75	3	6, 1, 8, 2, 3, 5, 4, 7, 11, 9

Evaluation

The skills of this subject shall appraise by different methods:

- Written examination (20%)
- Laboratory practice (50%)
- Works and involvement delivered in seminars (30%)

The final grade is the total of the score.

It is essential to all three parties correspondientes assessment tests to pass the course.

Assessable average of the three parties will be made, though one is suspended. But it does not mean it would be done if two of them are suspended.

OPTIONAL:

During the three weeks of new evaluation, we will proceed to recover:

- a) the practical part suspended.
- b) suspended the examination with a grade of 3.
- c) raise the note from 8.

Evaluation activities

Title	Weighting	Hours	ECTS	Learning outcomes
Defense and exhibition of works and active participation in seminars	30%	3.5	0.14	6, 1, 8, 4, 10, 11, 9
Exam	20%	1.5	0.06	6, 2, 3, 5, 4, 7
Laboratory practice	50%	13	0.52	6, 1, 8, 2, 5, 4, 7,
