Objectives and Contextualisation

Research in environmental education and consumer education is an opportunity to reflect and advance the design of curricula, skills training models and proposals.

The module takes as a starting point for research in environmental education, consumer education and economic education, and various ways to address, through education, relationships between people and the environment and among their own people.

We must encourage the formation of citizens able to meet the challenges requires a complex and globalized world, which manifests imbalances and inequalities in various scales.
