Evaluation

The final grade will be composed by the weighted average of two grades:

1. Final exam (70%), including all the contents of the course.
2. Continuous assessment of the progress during the course. Satisfactory completion of the course requires attendance to classes and completion of exercises and activities planned during the course for each subject. During the course all these aspects are assessed and will result in a grade that represents 30% of the final grade.

For passing the course, the weighted average of the two grades must be greater or equal than 5. A student will be considered as "not evaluated" if he/she does not show enough participation in any of the evaluation activities. If the final grade is below 4, the student must retake the course the following year. There will be a re-evaluation for those students who have a final grade equal to or greater than 4 and below 5. The professor will decide how to do this re-evaluation. As a result of the re-evaluation the maximum grade will be 5.
