**Objectives and Contextualisation**

The course attempts to analyze the economics and politics of the European Union.

The objectives of the course are:

- Understand the fundamentals of the European integration process.
- Understand the forms and dynamics of the institutional system of the European Union.
- Analyze competition, trade, monetary, agricultural, domestic, regional and social UE policies.
- Understand the characteristics, capabilities, limitations and challenges of the European economy.
- Analyze the integration of the single market in a context of globalization, convergence between Member States and with the United States, and strategies for stabilization and structural reforms.
- Understand the relationship between intensification policies and EU enlargement, and between competitiveness and solidarity in Europe.
- Manage community sources.

**Skills**

- Capacity for adapting to changing environments.
- Capacity for independent learning in the future, gaining more profound knowledge of previous areas or learning new topics.
- Demonstrate initiative and work individually when the situation requires it.

- Demonstrate knowledge of the structure of institutions and the state, their evolution and the consequences of possible changes, to be able to make a positive contribution to the debate about the role they play in current society.
- Know how to handle the analytical framework and empirical knowledge that is offered by the economy on international relations and the most important economic areas.
- Organise the work in terms of good time management, organisation and planning.
- Select and generate the information necessary for each problem, analyse it and take decisions based on that information.
- Show motivation for carrying out quality work and sensitivity to the consequences for the environment and society.
- Value ethical commitment in professional practice.
- Work well in a team, being able to argue proposals and validate or reject the arguments of others in a reasoned manner.

## Evaluation

Continuous evaluation consisting of

- two comprehensive exams (60% of the assessment),
- writing essays (30 % of the assessment) and
- presentations (10% of the assessment).

The minimum overall grade to pass the course is 5. This grade is the weighted average of the scores of the all the activities proposed during the course

If the final overall grade is less than 4, the student must repeat the whole course the next year.

Students whose final overall grade is between 4 and 5 are admitted to a re-evaluation exam. This exam is organized about one week after the final exam at the end of the semester. The re-evaluation exam grants at most 1 point. If a student passes the re-evaluation exam, her/his overall final grade will be 5.

A student is considered as "Not evaluable" for the final overall grade, whenever he/she did not participate to any evaluation activity. Therefore, a student participating to one or more single activities will be graded in accordance to the results of those activities even if he/she does not show up at the final exam.
