Internship will be carried out in different companies linked to Barcelona Activa, which is an institution with which the UAB has signed an agreement to collaborate in this field. The contents of the practicum will be variable and it will depend on the skills and profiles required by the company. In any case the academic tutor will supervise the development of activities in order to guarantee that the student acquires a sizeable amount of new knowledge from the internship experience.

English should be used as the communication language during at least 30% of the time in the internship. Moreover, bothwritten communications and reports should be in English.

Methodology

The School of Economics and Business through an agreement with Barcelona Activa will offer a maximum of 20 internship positions based on the interest and needs of the companies linked to that institution.

The selection criteria will be based on three items:

1. The grade point average (GPA) of the academic transcript of the student.

2. The fit of the student's profile with the company needs.
3. The relation between the courses followed by the student (i.e., his/her previous knowledge) and the characteristics of the internship.
