Teachers
Maria Soledad Mora Giral
Teresa Gutiérrez Rosado
Joan Torras Claraso
Josep Devi Bastida
Silvia Noguer Carmona
Joaquim Puntí Vidal
Clara López Solà

Prerequisites
The UAB student has already studied mandatory subjects as "Psychopathology along the lifespan" (2nd course, 3rd semester) and "Psychological Assessment" (2nd course, 4th semester) in previous courses. Both belong to the same big subject in the curriculum of the Psychology Degree at the UAB. For those students who come from the outside of the UAB, it is suggested to have studied subjects with basic knowledges on psychological assessment and psychopathology.

Objectives and Contextualisation

- To identify the intervention process in clinical practice and the main involved therapeutic skills.
- To know the main techniques of intervention and psychological treatment, their theoretical and experimental basis, the intervention process and the application areas.
- To learn to evaluate them in a critical way.
- To practice the administration of some intervention procedures.
- To know the issue and main available data on the efficacy of different psychological treatments.
Content
