Prerequisites

the subject (audit) has 6 ECTS. the issue is referred directly with all subjects linked with Accounting and financial matters. it is recommended to have a medium level of knowledge in accounting and financial issues. however, this is not an essential requirement.

Objectives and Contextualisation

The main objective of the course is for the student to acquire the necessary skills and knowledge to be able to perform the audit. The practical aspect is a constant throughout the development of the program.

- What does the audit mean for the company?
- What defines the auditor?
- How is an audit performed?

Competences

- Capacity for independent learning in the future, gaining more profound knowledge of previous areas or learning new topics.
- Capacity for oral and written communication in Catalan, Spanish and English, which enables synthesis and oral and written presentation of the work carried out.
- Demonstrate initiative and work individually when the situation requires it.
- Organise the work in terms of good time management, organisation and planning.
- Select and generate the information necessary for each problem, analyse it and take decisions based on that information.
- Show motivation for carrying out quality work and sensitivity to the consequences for the environment and society.
- Use of the available information technology and adaptation to new technological environments.

- Using accounting information as a tool for assessment and diagnosis.
- Value ethical commitment in professional practice.

Learning Outcomes

1. A capacity of oral and written communication in Catalan, Spanish and English, which allows them to summarise and present the work conducted both orally and in writing.
2. Assess ethical commitment in professional activity.
3. Capacity to continue future learning independently, acquiring further knowledge and exploring new areas of knowledge.
4. Demonstrate initiative and work independently when required.
5. Demonstrate motivation regarding the quality of the work performed and sensitivity regarding the consequences on the environment and society.
6. Interpret financial indicators of an entity and understand the decisions that can be taken from their analysis
7. Organise work, in terms of good time management and organisation and planning.
8. Select and generate the information needed for each problem, analyse it and make decisions based on this information.
9. Use available information technology and be able to adapt to new technological settings.
