Use of Languages

Principal working language: spanish (spa)
Some groups entirely in English: No
Some groups entirely in Catalan: No
Some groups entirely in Spanish: Yes

Prerequisites

Knowledge necessary to follow the subject: basic notions about methods of social research.

Objectives and Contextualisation

The main objective of Audience and reception studies is that students obtain basic knowledge about the behavior and activity of the public in the field of communication (especially in the digital environment), an essential aspect from the professional point of view. And, in addition, it also guarantees the acquisition of basic skills to be able to carry out social research.

This is a compulsory subject.

The final objective of the subject is to help students to:

(a) Develop communicative projects appropriate to the audiences to which they are directed (know how to act).

(b) Develop a critical and self-critical capacity in the face of communicative practice (knowing how to be).
Competences

- Demonstrate a critical and self-critical capacity.
- Demonstrate a self-learning and self-demanding capacity to ensure an efficient job.
- Demonstrate ethical awareness as well as empathy with the entourage.
- Demonstrate knowledge and skills to execute a practical and theoretical project with a scientific basis.
- Develop autonomous learning strategies.
- Develop critical thinking and reasoning and be able to relay ideas effectively in Catalan, Spanish and a third language.
- Disseminate the areas knowledge and innovations.
- Generate innovative and competitive ideas in research and professional practice.
- Manage time effectively.
- Research, select and arrange in hierarchical order any kind of source and useful document to develop communication products.
- Rigorously apply scientific thinking.

Learning Outcomes

1. Be familiar with and apply scientific method in researching audiovisual communication.
2. Demonstrate a critical and self-critical capacity.
3. Demonstrate a self-learning and self-demanding capacity to ensure an efficient job.
4. Demonstrate ethical awareness as well as empathy with the entourage.
5. Develop autonomous learning strategies.
6. Develop critical thinking and reasoning and be able to relay ideas effectively in Catalan, Spanish and a third language.
7. Disseminate the areas knowledge and innovations.
8. Generate innovative and competitive ideas in research and professional practice.
9. Implement various research methodologies of communicative phenomena.
10. Manage time effectively.
11. Raise scientific questions and establish hypotheses regarding communication research.
12. Research, select and arrange in hierarchical order any kind of source and useful document to develop communication products.
13. Rigorously apply scientific thinking.

Content

1. Audience concept
   a) Theoretical evolution: Mass, groups, users / individuals, prosumers
   b) Current views: Citizenship, publics and markets

2. Audience as citizenship
   a) From the perspective of mass media: socialization, social cohesion, linguistic normalization and public service
   b) From the perspective of reception: access/participation, activism/empowerment, crowdfunding/crowdsourcing

3. Audience as public
   a) Programmatic strategies: loyalty and interaction.
b) Publics, mass media and digital environment (digital social networks): hierarchies and contents

4. Audience as market
a) Audience measurement: samples, information collection techniques and indicators
b) Social media TV and last changes

5. New Trends in the study of publics

**Methodology**

The development of the subject includes three types of activities:

Directed:

a) Master Classes. Basic concepts

b) Seminars. Reading and analysis of sector reports, debates on current issues.

b) Laboratory practical: Development of a media content proposal, emphasizing the study of the target audience.

Supervised:

a) Personal interviews to check the evolution of learning and to help students.

Autonomous:

a) Students must read indicated articles as obligatory and they must do all activities planned for a correct development of the seminars and laboratory practices.

</table>

**Assessment**

The subject will be evaluated from different procedures (the final grade will be the sum of all the scores):
- Exam (25 %). Individual Written Test. (It can be repeated)
- Exercises in seminars (25 %). (It can be repeated)
- Laboratory practical (40 %). Design of a communicative project.
- Exercises in master classes (10 %).

The last two weeks will be dedicated to recovery activities, which can accommodate students who have made a minimum of 2/3 of all evaluable activities and have obtained a minimum score between 3,5 and 4,9. After a mandatory face-to-face individual interview and depending on the grade obtained, it will be decided which exercises can be repeated (Exam i/or seminars). In these cases student ca get a maximum of 5 an the note can not go down.

Students who have obtained a grade of 8 can choose to upload the grade form an oral test. In this case, the final grade may go down.
