The detailed calendar with the content of the different sessions will be presented on the day of presentation of the subject. It will be uploaded to the Virtual Campus, where students will also be able to access the detailed description of the exercises and practices, the various teaching materials, and any necessary information for the proper follow-up of the subject.

Methodology

Various activities will be carried out during the course:

- 1.- Master classes
- 2.- Worksop sessions
- 3.- Reading texts

4.- Presentations to the group

6.- Year Work of the subject (Communication Plan)

7.- Group or individual tutoring

8.- Conference or talk by professionals in the commercial communication and PR sector (to be defined)

These activities will be organized, during the 9 months of the course, as follows:

1- Master classes:

Keynotes about the matter, exposition and consultation of doubts (compulsory attendance).

There will be between 8 and 10 sessions of 3 hours throughout the course, taught by the main associate professor.

2- Workshop sessions:

Between 12 and 15 workshop sessions of 3 hours linked to each one of the master classes.

In them you can expand / complement the theoretical content explained in the keynote session, and then a practice will arise, which can be individual or in a group and can be done both in class or at home.

They will be taught by assistant teachers in two groups (50% of the class in alphabetical order).

3- Development of the course yearly task:

Preparation of a Communication Plan. Students will be divided into teams of 4 people. Several cases will be defined, which will be assigned for their development to 3 or 4 teams, which will "compete" for offering the best proposal.

The evolution of the work will be supervised by one of the professors through various tutorial sessions and a final evaluation of the finished written work will be carried out.

Subsequently, each group will make an oral presentation to defend their proposal in front of a tribunal formed by the 3 professors and, perhaps, an external professional linked to one of the cases. This court will punctuate each group and will choose, case by case, the winners of each "oral contest".

4- Text readings:

Various readings related to the theoretical contents and sections of the work will be provided, which each student must comment in writing and individually.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Masdterclass & theoretical Keynote sessions	30	1.2	9
Team work	160	6.4	13, 2, 1, 4, 5, 8, 11, 14
Tutorials	4	0.16	1, 5, 10
Workshops	60	2.4	13, 12, 5

Assessment

This subject conforms, together with Marketing of the first year and Creativity of the third year, the backbone of the Degree. That is why they are the core subjects of each of these three courses respectively, and they have 12 credits.

The subject is based on the balance between the learning of theoretical contents and the ability to apply them in a real day-to-day situation of the profession. Therefore, the evaluation contemplates this double dimension and the 12 credits will be distributed equally between exam (4), practices and readings (4) and course work (4).

The official program separates the two quarters and awards 7 of the twelve credits to the first and 5 to the second one. As each of these two blocks is independent, to pass the subject it is necessary to approve both of them. Therefore, if a student suspends one of the semesters, the subject can not be approved doing average and the suspended part must be recovered.

An approximation, not exact, between the allocation of credits by academic areas and by quarters is the following:

First quarter:

- Theoric exam..... 2 credits
- Workshop sessions..... 2 credits
- Work: Communication Plan 2 credits
- Readings 0.5 credits

In any of the four sections, the minimum grade to play average with other is a 4.

Second quarter:

- Theoric exam..... 2 credits
- Workshop sessions..... 2 credits
- Work: Communication Plan 2 credits
- Readings 0.5 credits

In any of the four sections, the minimum grade to play average with other is a 4.

The credits of the work will be divided, on 100 points, of the following form:

- 6 partial tutorials --> 45 points
- Global assessment of the final written work --> 25 points
- Oral presentation (contest classification) --> 30 points *

The winning team in each case will receive 30 points, the second 20, the third 10 and the fourth 0.

The student who performs any irregularity (copy, plagiarism, identity theft...) that can lead to a significant variation of the qualification of an evaluation act, will be qualified with 0 this act of evaluation. In case there are several irregularities, the final grade of the subject will be 0.

RECOVERY:

The student will be entitled to the revaluation of the subject if he or she has been evaluated of the set of activities the weight of which equals a minimum of 2/3 of the total grade of the subject.

If a student suspends any of the three parts (internship, work or exam), he / she will be able to recover it with a minimum grade of 3. If the grade is lower, he / she will not be able to recover the subject. The exams will be retrieved with an extra exam at the end of the course.

In the case of a second enrolment, students can do a single synthesis exam/assignment that will consist of a exam, divided in 2 momments, each one at the end of each quarter. The grading of the subject will correspond to the grade of the synthesis exam/assignment. However, to reduce the risk that students may face, they may choose to supplement the grading of the synthesis tests with practical exercises of the continuous assessment.

Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Exam	4 credits / 33% of the final grade	6	0.24	2, 1, 5, 6, 10, 9
Workshops, exercises & readings	4 credits / 33% of the final grade	30	1.2	12, 1, 4, 5, 8, 10, 11
Year task in groups	4 credits / 33% of the final grade	10	0.4	13, 2, 12, 1, 4, 5, 7, 3, 8, 10, 11, 14
