Assessment

ORDINARY EVALUATION

The evaluation of this subject will be done by reference to the evaluation activities that appear in the table below. It is very important for the student to take into account that the assessment also includes regular classroom attendance and the realization and assessment of exercises, translations and various questions proposed in class and on the moodle platform within the deadlines established by the teacher, for So as to demonstrate the comprehension and application of the contents explained in class. For this purpose, regular checks of the work will be carried out that will consist in the delivery of activities through the moodle platform. The students who regularly deliver the tasks may choose to increase the final mark of up to 0.5 points. In this way, a student who obtains a final grade of between 4.5 and 4.9 may opt for the approved one. Students who suspend Part 1 and pass Part 2, will be deemed approved the 1st part with the score of 5. The student who has not been submitted to any evaluation activity or only to an evaluation activity will have a "Non-Valuable".

REVALUATION

It is imperative to draw a minimum grade of 5 in each of the exams to pass the subject by ordinary evaluation. If you do not arrive at this note, the student will have to do the reassessment examination of the part that is suspended (with a note of less than five).

Reassessment may be made only to students who have submitted, at least, to three of the four assessment activities that appear in the table below.

In the re-evaluation the suspended part will be recovered, and will consist of:

1. Written proof of language

2. Oral proof

3. Reading control (Eurípides, Hipòlit).

All students who do not obtain an average qualification of the two partials of language (partial 1 and 2 of the lower part) must do the written test of language.

The grade obtained for the re-evaluation will replace the ordinary evaluation in each one of its parts. In case the reassessment note is lower than the evaluation note, the evaluation will be maintained.

The reassessment will be considered approved if the weighted average is equal to or greater than 5 points and the qualifications of each of the re-evaluation activities have been exceeded with a minimum of 4 points.
