Prerequisites

To have a Law Degree and fulfill the enrolment requirements

Objectives and Contextualisation

Integration in a Law Firm or any other that requires a Lawyer

Competences

- Choose the correct strategy for defending clients' rights, while keeping in mind the particular demands of each area within professional practice.
- Continue the learning process, to a large extent autonomously.
- Develop the interpersonal skills that lawyers need in their relations with citizens, other professionals and institutions.
- Identify conflicts of interest and know the techniques that are used to resolve these, determine the scope of professional confidentiality and maintain independence of judgement.
- Identify the essential service and organisational requirements for legal consultancy.
- Integrate knowledge and use it to make judgements in complex situations, with incomplete information, while keeping in mind social and ethical responsibilities.
- Know the techniques for ascertaining the facts in different types of procedure, especially the production of documents, examination and expert evidence.
- Present facts and their corresponding legal implications orally and in writing, in a way that is appropriate to the context and the addressees and, where necessary, to the established procedures.
- Understand and be able to implement the activities that support the professional lawyer: organisation, management and commercial dealings, and their legal framework, governing association, taxes, employment and data protection.
- Work in specialist interdisciplinary teams.

Learning Outcomes

1. Apply the techniques, tactics and strategies needed to resolve any legal affair, whether judicially or extra-judicially.
