**Objectives and Contextualisation**

The External Practices aim to:

- Give the student the opportunity to transfer both theoretical knowledge and practical content studied and to enter the professional world at the end of the program with a minimum of experience.
- Allow entities to collaborate in the training of future professionals, contribute to realistically introduce the knowledge that the development of tasks requires in the training of students.
- Perform training actions developed by a student within any public or private, national or international entity related to the sports world, with the objective of applying and complementing the acquired training.
- Bring the student closer to the business reality in which he will practice as a professional
- Help the student to develop skills that favor their incorporation into the labor market.
- If the internships are carried out outside the Spanish state, the student must take out a practical and civil liability insurance that covers the entire internship stay. Said insurance must be sent to the internship department two weeks before the internship start date for its corresponding validation.

Likewise, all internship agreements must contain an official digital signature of both the student and the collaborating company.

**Competences**

- Apply the knowledge and skills learned in a professional environment in the area of sports management.

- Apply tools and methodologies which facilitate creative and innovative thinking in everyday situations related to the environment of sports business.
- Be able to reason autonomously and critically on business topics and issues applied to sports environments.
- Communicate and justify conclusions clearly and unambiguously to both specialist and non-specialist audiences.
- Continue the learning process, to a large extent autonomously.
- Integrate knowledge and use it to make judgements in complex situations, with incomplete information, while keeping in mind social and ethical responsibilities.
- Lead a team and work in multidisciplinary teams, participating actively on tasks and negotiating between diverse opinions to reach positions of consensus.
- Recognize the diversity of points of view, understand multiculturalism and be able to express their own opinions while respecting divergent opinions.
- Solve problems in new or little-known situations within broader (or multidisciplinary) contexts related to the field of study.
