## Methodology

Lecturers will put into practice the educational activities they deem appropriate in order to facilitate the study and learning of the student.

The development of the teaching of the subject and of the learning of the student is based on the following formative activities:

1. Guided activities: activities where the teacher develops the active part of the class.

It includes master classes where the student reaches the conceptual bases of the subject and its legal and regulatory framework and jurisprudential.

Also, the practical classes, where students, individually or in small groups, analyze and solve along with the professor practical cases.

2. Supervised activities: activities that students will develop individually or in small groups, with the support of the lecturer, in order to prepare the evaluable practices,

such as discussion and resolution of cases, comments, debates, simulations of judgments, others.

3. Autonomous activities: activities that students will develop autonomously. It includes among others the search and reading of bibliography,

norms and jurisprudence, study, preparation of practical cases.

The proposed teaching methodology may undergo some modifications according to the restrictions imposed by the health authorities on on-campus courses.

## Activities

Title	Hours	ECTS	Learning Outcomes
