Assessment

The evaluation of this subject will be carried out from the following deliveries on the part of the student:

Final exam: 50% of the grade. It is necessary but not sufficient to pass the exam to pass the subject.

Reading controls and participation in seminars: 25% of the grade (short essays on compulsory reading texts and active participation in seminars).

Course work: 25% of the grade (work in group and oral presentation on one of the topics proposed by the teacher).

Important considerations:

The dates of the reading seminars will be specified in the framework of the programming of the subject (see Aula Moodle).

Attendance to the seminars is compulsory. The corresponding essays can only be delivered if students have attended the session. Essays with no attendance will only be accepted for events of force majeure and properly justified.

The quality of the contributions in the discussions will be taken into account.

Students are obliged to notify the composition of the group and the topic of the work on the date set by the teacher (early October). Otherwise, they will not be allowed to hand it in.

The fact of taking the exam exempts the student from the grade "Not presented".

Students who have not passed the exam will have the opportunity to take part in compensation activities, i.e. they will be able to take the suspended exam again at the end of the second term. The maximum grade on such a make-up exam is a 5 (passed). The rest of activities (work and reading controls) are not recoverable.

Any student who, due to duly justified work or health reasons, or due to the fact of being in Erasmus, cannot attend the course normally, must notify the teacher before the end of September, in order to agree the corresponding compensatory activities. If this notification takes place later, without a reason, the students will not be able to pass the course.
