Methodology

Training activities are divided into directed, supervised, autonomous and assessment activities.

Directed activities (90 hours): explanations of each unit's most important content, written comprehension exercises, writing expression exercises, practice of grammar points and new vocabulary, sight translation, dictation, review of previous content, clarifying general doubts, etc. Approximately 15 hours will be spent on each teaching unit. Classroom activities will be varied and of different types (oral and written, individual and group).

Supervised activities (51 hours): writing expression and comprehension exercises.

Autonomous activities (around 150 hours): calligraphy by computer, study of characters and vocabulary, preparation and revision of texts and new grammar points, exercises and self-assessment thereof (via the teaching web).

It is important that students attend class regularly, and essential that they consistently study new content in advance, carry out exercises and review previous content. It is assumed that they will do so in order to keep up with the pace of the subject.

Assessment (28 hours) will comprise classroom exams and directed activities (teaching portfolio).

Assessment

All information on assessment, assessment activities and their weighting is merely a guide. The subject's lecturer will provide full information when teaching begins.

1. General assessment

The subject's (formative and summative) assessment activities will be as follows:

1.1. Teaching portfolio (40%): each teaching unit will include vocabulary tests and written exercises.

The teaching portfolio will represent 60% of the final mark, based on:

- vocabulary tests (20%).
- short written exercises (handwritten on paper) (20%).

1.2. Exams (60%): students will take two exams worth 60% of the final mark (30% each), the first in the middle of the semester (november) and the second at the end (January).

Related matters

The above information on assessment, assessment activities and their weighting is merely a guide. The subject's lecturer will provide full information when teaching begins.

Review

When publishing final marks prior to recording them on students' transcripts, the lecturer will provide written notification of a date and time for reviewing assessment activities. Students must arrange reviews in agreement with the lecturer.

Missed/failed assessment activities

Students may retake assessment activities they have failed or compensate for any they have missed, provided that those they have actually performed account for a minimum of 66.6% (two thirds) of the subject's final mark and that they have a weighted average mark of at least 3.5. Under no circumstances may an assessment activity worth 100% of the final mark be retaken or compensated for.

In the case of retaking or compensating for an assessment activity, the highest mark that can be obtained is 5.

The lecturer will inform students of the procedure involved, in writing, when publishing final marks prior to recording them on transcripts. The lecturer may set one assignment per failed or missed assessment activity or a single assignment to cover a number of such activities.

Classification as "not assessable"

In the event of the assessment activities a student has performed accounting for just 25% or less of the subject's final mark, their work will be classified as "not assessable" on their transcript.

Misconduct in assessment activities

Students may not retake assessment activities in which they are found to have engaged in misconduct. Plagiarism is considered to mean presenting all or part of an author's work, whether published in print or in digital format, as one's own, i.e. without citing it. Copying is considered to mean reproducing all or a substantial part of another student's work. In cases of copying in which it is impossible to determine which of two students has copied the work of the other, both will be penalised.
