Use of Languages

Principal working language: catalan (cat)
Some groups entirely in English: No
Some groups entirely in Catalan: Yes
Some groups entirely in Spanish: No

Prerequisites

It is recommended that students take the 4th year optional subject "communication and oral language in inclusive schools" concurrently.

Objectives and Contextualisation

The methodological objectives of this course are developed within strategies based on directed, supervised and autonomous work.

The main objectives are to:

1. Adapt teaching-learning processes to respond to children's special educational needs (SEN) in contexts of diversity.
2. Know the educational system and the current curriculum to be able to carry out actions to fulfil specific learning needs.
3. Explore different methodological strategies to respond to the SEN of pre-school and primary education students, from the speech therapist point of view.

Competences

- Advise on the development and implementation of care and education policies on issues relating to speech therapy in school, welfare and medical teams.
- Design and carry out speech-therapy treatment, whether individual or at group level, establishing objectives and phases, with more efficient and suitable methods, techniques and resources, attending to the distinct developmental phases of human beings.
- Ethically commit oneself to quality of performance.
- Have a strategic and flexible attitude to learning.
- Integrate the foundations of biology (anatomy and physiology), psychology (evolutionary processes and development), language and teaching as these relate to speech-therapy intervention in communication, language, speech, hearing, voice and non-verbal oral functions.
- Understand, integrate and relate new knowledge deriving from autonomous learning.

- Use the exploratory techniques and instruments pertaining to the profession, and register, synthesise and interpret the data provided by integrating this into an overall information set.
- Working in intra- and interdisciplinary teams.

Learning Outcomes

1. Analyse the influence of shared schooling on the development of children who require curricular adaptations.
2. Collaborate in the curricular adaptation and/or curricular access program, according to the difficulties of hearing and/or language of the school.
3. Critically explain the impact of different models of educational-integration policy on the use of public resources in the education system.
4. Describe the influence of context and of social interaction and dynamics when assessing special-educational needs and in designing and planning an intervention.
5. Detect the communicative problems that generate difficulties in the school learning.
6. Establish and list appropriate criteria for the development of an individualised educational programme.
7. Ethically commit oneself to quality of performance.
8. Evaluate and to value the communicative competences and the development of the linguistic abilities of the students.
9. Explain in a contextualised manner speech-therapy intervention in school settings taking into account school-based management and the common curriculum for all students.
10. Explain methods to promote the integral development of people with special needs to whom this would be addressed.
11. Explain the role of the common curriculum in schools.
12. Explain the special educational needs associated with hearing and speech impairment.
13. Have a strategic and flexible attitude to learning.
14. Understand, integrate and relate new knowledge deriving from autonomous learning.
15. Working in intra- and interdisciplinary teams.

Content

1. The Catalan educational context
 1. Educational System
 2. Different educational stages
 3. The 150 decree
2. The curriculum
 1. Foundations and characteristics
3. Design and organization of teaching-learning contexts in schools
 1. Educational school project
 2. Linguistic project
 3. Annual programmes
 4. Class programme (teaching unit)
4. Curricular adaptations and production of individualized plans
 1. Special educational needs: concept, kinds and causes
 2. Learning difficulties related to audition and speech
 3. How to develop an individualized plan
 4. Special resources: SIEI, SIAL, AIS
5. Methodological and organizational resources to achieve equity
 1. School as an inclusive setting
 2. The role of the speech therapist

Methodology

The course will be structured as a team project (an active methodology, very useful to take into account educational diversity), where involvement and participation of all students will be very important since the very first moment. There will be lectures open to students' participation and in-class activities (study case, simulations and discussions), highlighting students' presentations.

Activities in this course are directed, supervised and autonomous.

- Directed activities are led by the teachers, and are carried out in the classrooms. These sessions take place in a large group and they include presentations, thinking and debate of the main contents of the blocks.
- Supervised activities take place outside the classroom and include individual as well as in group tutoring, which aims is to overcome difficulties, guide tasks and ensure the comprehension of the learning outcomes.
- Autonomous activities are carried out by students independently, and include reading preparation, studying cases and some tasks to ensure the best academic achievement of the student.

N.B. The proposed teaching and assessment methodologies may experience some modifications as a result of the restrictions on face-to-face learning imposed by the health authorities. The teaching staff will use the Moodle classroom or the usual communication channel to specify whether the different directed and assessment activities are to be carried out on site or online, as instructed by the Faculty.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
- Lectures: 26 hours	24	0.96	1, 14, 7, 4, 6, 9, 3, 11, 12, 10, 13, 15
- Seminars	12	0.48	1, 2, 14, 7, 4, 5, 6, 9, 10, 15
Type: Supervised			
Individual study and team work	28	1.12	1, 14, 7, 4, 6, 9, 3, 11, 12, 10, 13, 15
Type: Autonomous			
Lectures, and in-class activities	84	3.36	1, 8, 2, 14, 7, 4, 5, 6, 9, 3, 11, 12, 10, 13, 15

Assessment

This course follows a continuous assessment process.

Evidence code	Name	Weight	Format (oral, written or both)	Authorship (individual, group or both)	Mode (in-class, on line or both)	Due Date	F C . S S
EV1	Question research project presentation	35%	Oral	Group	In-class	16/10/20	7 M
EV2	Case study	20%	Writing	Individual	In-class	06/11/20	7

EV3	Instructional material adaptation	35%	Writing	Group	Online	11/12/20
EV4	Legislative context presentation	10%	Oral	Group	In-class	15/01/21

Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
EV1: Question research project	35%	1	0.04	1, 14, 7, 4, 6, 9, 3, 11, 12, 10, 13
EV2: Legislative context presentation	10%	1	0.04	14, 3, 13, 15
EV3: Case study	20%	0	0	1, 8, 2, 14, 7, 4, 5, 6, 9, 3, 11, 12, 10, 13, 15
EV4: Educational material adaptation. Due date	35%	0	0	1, 14, 7, 4, 6, 9, 3, 11, 12, 10, 13
