Use of Languages

Principal working language: catalan (cat)
Some groups entirely in English: No
Some groups entirely in Catalan: Yes
Some groups entirely in Spanish: No

Teachers

Io Salmons Llussa

Prerequisites

Aquesta guia es publica únicament en la llengua en què s'imparteix la docència.

Objectives and Contextualisation

Aquesta guia es publica únicament en la llengua en què s'imparteix la docència.

Competences

- Critically evaluate the techniques and instruments of evaluation and diagnosis in speech therapy, as well as its procedures of intervention.
- Demonstrate an understanding and correct use of the terminology and methodology of speech-therapy research.
- Demonstrate an understanding of disorders in communication, language, speech, hearing, voice and non-verbal oral functions.
- Evaluate the scientific production that supports speech therapists professional development.
- Identify, analyze and solve ethical problems in complex situations.
- Use the exploratory techniques and instruments pertaining to the profession, and register, synthesise and interpret the data provided by integrating this into an overall information set.

Learning Outcomes

1. Conduct an examination of language via the techniques of linguistics and use the results of this exploration to issue prognoses of evolution.
2. Correctly use the terminology of linguistics and psycholinguistics, as well as the nomenclature of language disorders.

3. Describe and explain the usefulness of techniques used in linguistics to assess language disorders.
4. Explain the linguistic characteristics of distinct language disorders.
5. Explain the linguistic characteristics of people with and without language disorders, described in scientific publications.
6. Identify, analyze and solve ethical problems in complex situations.

Content
