Objectives and Contextualisation

This course is the first one about business management included in the Bachelor's degree in Tourism. The course begins with the concept, elements and types of business firms. Then we study the managerial functions and tasks. All the aspects of the business strategy are discussed and developed, starting from strategic analysis (both internal and external) and strategic choices (both at a competitive level as at the corporate level). Throughout the course we will mostly emphasize companies or organizations that are related to the various tourist activities. Also, we will combine theoretical with practical activities.

At the end of the course the student will be able to:

1. Understand the fundamental aspects related to the company and its managerial functions, with special emphasis on the various tourism companies.
2. Know and understand the concepts and techniques related to the strategic direction of the company and its application in the field of tourism.
3. Entrepreneurship and innovation. In order to encourage the entrepreneurial spirit of students, we will work and discuss about entrepreneurship in the context of the managerial function and business strategy. Also, the course will analyze some case studies which involve the creation and development of a company in the field of tourism. Finally, the analysis of a real tourist company by students will include the analysis of its creation and subsequent evolution

Competences

- Apply the concepts related to tourism products and businesses (economy and finance, human resources, commercial policy, markets, operations and strategy) in the different parts of the sector.
