Assessment

The evaluation of this course consists of these parts:

- One written work or two written works with a value of 30% of the final grade of the course (15% each work in case of two works). The content may be recovered if the arithmetic mean of the three evaluation parts of the course is not 5 or more points. These will be retrieved in a final exam with all contents of the course.
- Two written exam. The content will be explained the first day of the course and its value is 70% of the final grade of the course, 35% each exam. The content may be recovered if the arithmetic mean of the three evaluation parts of the course is not 5 or more points. Written exam will be retrieved in a final exam with all contents of the course.

It will be "Not evaluable" if a student had delivered a percentage of evidence lower than 75% of the evaluation and if the arithmetic mean of the final grade of the course is lower 2 points.

At the time of completion/delivery of each assessment activity, the teacher will inform (Moodle, SIA) of the procedure and date of revision of the grades.

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

The retrieval consists in a final exam with all the contents of the course, if the arithmetic mean of the three evaluation activities of the course is not 5 or more. The student must present a percentage of evidence of learning not less to 75% and the arithmetic average of the final grade of the course must be equal or greater than 2 points. It only allows approve and, therefore, the notewill be 5 points.

Calendar: Date will be establish by the Faculty. It is the responsibility of the teachers and students to knowledge of the date.

The teacher must schedule the final exam at least one week before the date of retrieval. Students must have had enough time to review the last evaluation before retrieval.

It is not allowed recovery exam to increase the grade of the course. The retrieval only allows approved (5) or fail.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.
