Methodology

The teaching methodology and the training activities can be diverse and will be evaluated according to the teacher's proposal:

Assistance to theoretical classes
 Assistance to seminars and practical sessions
 Comprehensive reading of texts
 Performing reviews, works and analytical comments
 Preparation and realization of oral presentations
 Personal study

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Type: Directed			
Seminars	1.3	0.05	3, 4, 8, 12
Theoretical classes	49.7	1.99	1, 2, 9

Type: Supervised

Tutorials	15	0.6	5, 11, 7
-----------	----	-----	----------

Type: Autonomous

Personal study	75	3	10
----------------	----	---	----

Assessment

The subject will be evaluated by applying the following procedures:

- Written tests (2 partial: spaced throughout the course): 70% (35%+35%)

- Realization of a job (mandatory to qualify for recovery): 30%

* All the subject matter of the course contained in the explanations in class and, where appropriate, compulsory readings that can be indicated during the course will be evaluated.

* The dates of completion of the tests in the classroom and delivery of work will be communicated to the students at the beginning of the course.

* At the time of completion of each evaluation activity, the faculty will inform the students (Moodle) of the procedure and date of review of the grades.

Recovery

The student who does not participate in evaluation activities for a minimum value of 65% of the continuous assessment grade will be considered as "not evaluable". This amounts to a partial and work.

Students who have not done compulsory work may not be presented in recovery.

Only the evaluation activities carried out can be recovered.

The recovery will consist of a global examination of the subject matter and will be held on the official dates established by the Faculty.

In no case may recovery be considered as a means of improving the qualification of students who have already passed the subject in the normal process of continuous assessment.

The maximum note that can be obtained in the recovery is 5.0 (Approved).

revision

The students will have the right to review the results of the tests carried out. the teacher will establish a specific tutoring schedule to proceed with the comment of the evaluation activities carried out

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.
