## Assessment

The evaluation will be carried out using three main evidences:

1. Participation in the forum or a parallel activity via Moodle
2. The memory about a compulsory reading.
3. The test that will be done at the end of the course (with the possibility of doing a partial in the middle of the semester).

The percentages of the activities will be 40% for the test, 30% for the forum and 30% for the memory.

The specific dates of both the written tests and the compulsory reading memories will be specified on the first day of class.

At the time of each evaluation activity, the teacher will inform the students (Moodle) of the procedure and date of revision of the grades.

To be able to average with the rest, the average of the two partial written tests will never be made with grades below 4.

The student will receive the grade of Non-evaluable as long as they have not passed more than 30% of the evaluation activities.

In the case of having failed any of the two partial tests, the student may present to the recovery of the corresponding block.

To participate in the recovery, the students must have previously been evaluated in a set of activities, the weight of which is equivalent to a minimum of 2/3 parts of the total grade.

To participate in the recovery process, it may be required to have obtained a minimum final grade, which cannot exceed 3.5 in any case.

In the event that the student makes any irregularity that may lead to a significant variation in the grade of an assessment act, this assessment act will be rated 0, regardless of the disciplinary process that may be instructed.

In the event that several irregularities occur in the acts of evaluation of the same subject, the final grade for this subject will be 0.

In the event that the tests cannot be done in person, their format will be adapted (maintaining the weight) to the possibilities offered by the virtual tools of the UAB. Homework, activities and class participation will be carried out through forums, wikis and / or discussions of exercises through Teams, etc. The teacher will ensure that the student can access or offer alternative means that are within their reach.
