CLASS GROUP

Allow the presentation of content and the active participation of all. Although it is an activity carried out by the teacher. Obviously, it should be considered the active participation of students, especially sharing the learning achievements or those who are being achieved. In this moment is when the practical activities that will form part of the subject and to be developed individually or in groups are presented.

SEMINARS

Allow to work in medium-sized groups (25-30 people approx.) To reinforce individual work and small group work (5 persons approx.). It is also adequate space for discussion and to customize, without losing reference to group learning.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.
