Methodology

Sequence of the course

First, we will develop the first section (lectures and seminars), and the second section will be after (lectures and seminars).

In one way or another, the content of this course are connected with the subject "Fundamentals of Socio-education" and are to take into account for those students who wish to specialize in the socio-community aspects.

The sessions of Section 2 of this subject are based on research and experimentation with materials by students, which requires an investigation based on image documentation and recycling of materials for art and cultural practices. In addition, the methodology adopted for its successful development requires that students bring to the classroom materials for the realization of art and cultural activities. Teachers will recommend the most suitable material for planned activities, which will have a sustainable cost and can be shared among students. We will search for mechanisms to ensure that the student can have it in case he/she do not have the necessary resources.

Our teaching approach and assessment procedures may be altered if public health authorities impose new restrictions on public gatherings for COVID-19.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

Section 1. The theoretical and methodological foundations of DCC. Deepening conceptual and research 50%. The evaluation will be one week after the classroom activities. The exam will be fixed at the end of the first section (50%).

Section 2. Practical dimension: performative education and projects in DCC. Analysis and development of socio-educational community projects (50%). The students will deliver the group work and the individual statement at the end of the second section.

The descriptions of the work and activities will be provided in the syllabus.

To pass the course the student must have achieved at least 4 pt in the section, for the average. The students have the opportunity to recover what they have not passed in the recovery week stipulated by the UAB calendar.

Class attendance is mandatory: the student must attend at least 80% of classes, otherwise it will be considered non evaluable. This course assesses the active participation of the student as an important factor and this will affect the ratings of individual and group work.

The return of the different assessment activities will be at most 15 days after delivery. The copying or plagiarism will be cause for suspension of the subject.

One of the necessary criteria to pass this subject will be to show, throughout the course, that the student has developed some personal and social skills essentials to be a social educator: active participation in classes, responsibility and rigor in autonomous work, not judging, arguing, appropriate use of electronic devices (mobile, computer, etc.), critical thinking and behaviors that favor a friendly and positive environment, democratic and where differences are respected. The subject teacher will observe, document the sessions and write down evidence in relation to these personal and social skills of the students; and will be evaluated throughout the course.

It is also necessary that the student shows a good general communicative competence, both orally and in writing, and a good command of the language or languages that appear in the teaching guide.

The assessment will also focus on skills for cooperative and teamwork and will be gender sensitive.
