### Contact

Name: Adrià Pagès Mimó  
Email: Adria.Pages@uab.cat

### Use of Languages

Principal working language: catalan (cat)  
Some groups entirely in English: No  
Some groups entirely in Catalan: Yes  
Some groups entirely in Spanish: No

### Prerequisites

There are no prerequisites to enroll in Education of children, adolescence and youth

### Objectives and Contextualisation

This course is a compulsory subject in the third year that aims to train professionals in areas of most tour of Social Education at the same point that encourage it from a methodological standpoint: the rehabilitative care in the stages of childhood and adolescence. It is also the subject that underlies the mention of the fourth year of the same name. The general educational objectives of the course are: 1. To contextualize the socio-educational process in two stages in the development of a person: childhood and adolescence. 2. Identify and evaluate the different training and educational and child care resources and adolescence based on a territory and the various agents operating. 3. Identify and initiate the development of competences of social educators to work properly in these vital steps in coordination with other educational and socializing agents.

### Competences

- Accompany people in their processes of growth and emancipation.
- Adopt ethical behaviour and attitudes and act according to the ethical principles of the profession.
- Analyse the organization and management of socio-educational institutions.
- Apply the socio-emotional skills needed to manage human relations.
- Contextualize educational action based on the different theoretical paradigms that have developed in science and education in accordance with the socio-historical context of individuals, groups and institutions.
- In an articulated manner, design plans, programs, projects, activities and tasks in various socio educational contexts.
- Maintain a respectful attitude to the environment (natural, social and cultural) to promote values, behaviour and sustainable practices that address gender equality, equity and respect for human rights.
- Promote autonomy among participants and seek a balance between roles as advisor, facilitator and promoter of socio-educational dynamics.
- Use information and knowledge from different sources and contexts (reports, articles, etc.) specific to the social sciences.

## Learning Outcomes
