Methodology

Teaching will be offered on campus.

The teaching methodology is based on the student's activity in order to acquire the necessary skills to understand the development of the teaching of the subject and the training of the student.

1. Directed activities.

Master classes in which the teacher provides the basic concepts of the subject.
Practical classes where the students analyze and solve together with the teacher.

2. Supervised activities.

These are activities that students will develop with the supervision and support of the teacher.

3. Autonomous activities.

The student has to organize time and effort autonomously, either individually or in groups.

The proposed teaching methodology may undergo some modifications according to the restrictions imposed by the University of Valencia.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

A continuous evaluation will be carried out by carrying out various activities during the academic year. The activities will be carried out in particular, there will be two (2) partial exams-tests (with a total value of 2.00). Failure to carry out any of the exams-tests implies the suspense, unless the student has obtained a grade of 1.00 or greater. In order to be able to do the average with the other activities (50% of the total grade). Theoretical-practical cases and follow-up of the course (50% of the global grade). For those students who have obtained a grade that is equal to or greater than 1.00, the final grade will assess the regular attendance, participation and behavior. The final grade will assess the regular attendance, participation and behavior. A student is considered to be "NOT ASSESSABLE" in the assignment as long as they have not obtained a grade of 1.00 or greater.

Calendar of evaluation activities.

The dates of the different evaluation tests (partial exams, classroom exercises, etc.) will be announced in the calendar of the subject. The date of the final exam of the subject is programmed in the calendar of the subject. "The programming of the evaluation tests can not be modified, unless the student has obtained a grade of 1.00 or greater. Students of the Faculty of Economics and Business who, in accordance with the regulations, have obtained a grade of 1.00 or greater, will be considered to be "NOT ASSESSABLE" in the assignment as long as they have not obtained a grade of 1.00 or greater.

Procedure for the review of qualifications.

Coincident with the final exam will be announced the day and the means of the subject.

Procedure of revaluation

All students are required to perform the evaluation activities. If the student's grade is 5 or higher, the student passes the course and it cannot be subject to further evaluation. If the student grade is less than 3.5, the student will have to repeat the course the following year. Students who have obtained a grade that is equal to or greater than 3.5 and less than 5 can take a second chance exam. The lecturers will decide the type of the second chance exam. When the second exam grade is greater than 5, the final grade will be a PASS with a maximum numerical grade of 5. When the second exam grade is less than 5, the final grade will be a FAIL with a numerical grade equal to the grade achieved in the course grade (not the second chance exam grade).

A student who does not perform any evaluative task is considered "not evaluable", therefore, a student who performs a continuous assessment component can no longer be qualified with a "not evaluable"
