**Objectives**

This is an optional course.

The main goal of the course is to gain knowledge on the Catalan economy mainly from a macroeconomic point of view and in the Spanish, European and International context.

The recent evolution and the current situation of the Catalan economy is explained in an international economic context.

Attention is devoted to the trajectories of key macroeconomic variables and the accompanying economic policy measures.

Students are introduced to the main economic features of the contemporary economy and the interpretation of its developments through the lens of basic theoretical concepts and analytical tools.

The objectives of the course are the following:

1. Increase the students' interest for the study of the economy.
2. Increase the students' knowledge on the general functioning of the economy, its different markets, and its economic institutions.
3. Application of the economic analysis to specific realities.
4. Achievement of a better empirical comprehension of economic dilemmas.
5. Uncover the social dimension of the economy and its relationship with welfare.
6. Stimulate students express their progress in written work, oral communication, and the identification and processing of the relevant information related to the course.

## Methodology

Methodology

Teaching will be offered on campus or an on-campus and remote hybrid format depending on the number of students per group and the size of rooms at 50% capacity

The teaching methodology consist on:

Lectures. Standard lectures in class. Class attendance is essential, but needs to be complemented with personal work at home.

Essays on current events and case studies. Students may be asked to work in small groups for some of these, which may include discussions, presentations and specific analyses on key issues, as well as the treatment of statistical information sources. Some tutorials may take place at the computer room.

Self-learning activities. Complementary to the course. The student is supposed to dedicate enough time and effort to understand and assimilate the contents of the course through reading and studying the notes, texts and other materials suggested by the lecturer, and through the completion of the exercises or essays indicated during the course.

The proposed teaching methodology may undergo some modifications depending on the face-to-face restrictions imposed by the health authorities.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

## Assessment

Evaluation

Assessment will be carried out continuously throughout the course, in accordance with the following criteria:

1. Two written tests: 75%.
2. Practice and exercises about current economic events: 15%.
3. Recommended activities, class attendance and participation: 10%.

The evaluation of the theoretical content of the subject will be carried out through two written tests. The first

4 The evaluation of the theoretical content of the subject will be carried out through two written tests. The first one will take place in the middle of the term and the second in the date set by the Faculty for the final exam.

Each of the tests has the same weight in the final assessment (37.5%).

Therefore, the average grade of the subject is obtained as: 37.5% (grade of the first test) + 37.5% (grade of the second test) + 15% (grade of practice and exercises about current economic events) + 10% (grade of recommended activities, attendance and participation).

In order to pass the subject, any student should meet the following two:

1. the average grade of the subject is equal to or greater than 5 and,
2. The average grade obtained at the two partial exams is equal to or greater than 4.

Therefore:

- If a student meets the first requirement but not the second, he/she will have an average grade of the subject of 4.5 and will be attend the retake test, as explained below in the section "Retake process".
- If a student meets the second requirement but not the first, or doesn't meet any of them, he/she will obtain an average grade of the subject that arises from the direct application of the previous weightings, and will be able to attend the retake test (see "Retake process" below).

Any student who has not attended any of the two written tests will be considered as 'non-assessable'

#### Calendar of evaluation activities

The dates of the evaluation activities (midterm exams, exercises in the classroom, assignments, ...) will be announced well in advance during the semester.

The date of the final exam is scheduled in the assessment calendar of the Faculty.

*"The dates of evaluation activities cannot be modified, unless there is an exceptional and duly justified reason why an evaluation activity cannot be carried out. In this case, the degree coordinator will contact both the teaching staff and the affected student, and a new date will be scheduled within the same academic period to make up for the missed evaluation activity."* Section 1 of Article 115. Calendar of evaluation activities

**(Academic Regulations UAB).** Students of the Faculty of Economics and Business, who in accordance with the previous paragraph need to change an evaluation activity date must process the request by filling out an
