Prerequisites

No specific background is required to course this programme. Of course, students are expected to have a basic knowledge of the core courses in economics as principle of international economics, principle of macroeconomics and principles of microeconomics. Some basic notions in marketing could be also a useful plus.

Objectives and Contextualisation

This is an elective course. It aims at providing a general overview of the most common international practices in trade. The focus will be on the practical managing of the import-export operations at firm level under a competitive perspective. The course is introducing students to the knowledge and managing of the most salient tools to meet the requests of firms involved in the international transaction processes. Students will learn basic information about the importance of the international trade for the competitive consolidation process in Catalonia and Spain. They also will be able to deal with the most proper instruments to solve simple practical exercises simulating real case studies. Finally, they will be also able to search for the most relevant information to plan feasible internationalization strategies still at firm level.

Competences

- Act with ethical responsibility and respect for fundamental rights and duties, diversity and democratic values.
- Capacity for adapting to changing environments.
- Capacity for independent learning in the future, gaining more profound knowledge of previous areas or learning new topics.
- Capacity for oral and written communication in Catalan, Spanish and English, which enables synthesis and oral and written presentation of the work carried out.

- Demonstrate initiative and work individually when the situation requires it.
- Demonstrate knowledge of the structure of institutions and the state, their evolution and the consequences of possible changes, to be able to make a positive contribution to the debate about the role they play in current society.
- Identify the economic agents that make up an economy, understanding how they have been interrelated to date, how they are currently interrelated and forecast futures according to new circumstances and their influence on a specific company.
- Know how to handle the analytical framework and empirical knowledge that is offered by the economy on international relations and the most important economic areas.
- Organise the work in terms of good time management, organisation and planning.
- Select and generate the information necessary for each problem, analyse it and take decisions based on that information.
- Take account of social, economic and environmental impacts when operating within one's own area of knowledge.
- Work well in a team, being able to argue proposals and validate or reject the arguments of others in a reasoned manner.

Learning Outcomes

1. A capacity of oral and written communication in Catalan, Spanish and English, which allows them to summarise and present the work conducted both orally and in writing.
2. Analyse the indicators of sustainability of academic and professional activities in the areas of knowledge, integrating social, economic and environmental dimensions.
3. Analyse the role of international institutions in the economy.
4. Assess the functioning and current situation of the Spanish economy.

Assessment

The assessment of the learning (final mark) will be the weighted average of the following activities:

- 20% Midterm exam
- 45 % Final exam
- 20 % Individual project,
- 15% Group project (including presentation).

PLEASE REMARK:

All students are required to perform the evaluation activities.

The two exams (midterm and final) require a minimum score of 3.5 each. When this threshold is not reached (that is, when the mark is below 3.5) the score of the correspondent exam that will be considered for the final mark will be zero. The marks of the other activities to complete the final evaluation do not require a minimum threshold.

The subject is approved with a final mark of 5. In the case of a final mark less than 3.5, the student will have to take to the subject in the following year.

Students who have obtained a final mark that is equal to or greater than 3.5 and less than 5 are eligible for a retake exam. The lecturers will decide the type of ~~the second chance~~ retake exam. When the mark of the retake exam is greater than 5, the final mark will be PASS with a maximum numerical score of 5. When the mark of the retake exam is less than 5, the final mark will be a FAIL with a numerical score equal to the mark previously achieved (not the mark of the retake exam).

A student who does not perform any evaluative task is considered "not evaluable", therefore, a student who performs a continuous assessment component can no longer be qualified with a "not evaluable

Calendar of evaluation activities

The dates of the evaluation activities (midterm exams, exercises in the classroom, assignments, ...) will be announced well in advance during the semester.

The date of the final exam is scheduled in the assessment calendar of the Faculty.

*"The dates of evaluation activities cannot be modified, unless there is an exceptional and duly justified reason why an evaluation activity cannot be carried out. In this case, the degree coordinator will contact both the teaching staff and the affected student, and a new date will be scheduled within the same academic period to make up for the missed evaluation activity." **Section 1 of Article 115. Calendar of evaluation activities (Academic Regulations UAB).** Students of the Faculty of Economics and Business, who in accordance with the previous paragraph need to change an evaluation activity date must process the request by filling out an Application for exams' reschedule*

Grade revision process

After all grading activities have ended, students will be informed of the date and way in which the course grades will be published. Students will be also be informed of the procedure, place, date and time of grade revision following University regulations.

Retake Process

"To be eligible to participate in the retake process, it is required for students to have been previously been evaluated for at least two thirds of the total evaluation activities of the subject." Section 3 of Article 112 ter. The recovery (UAB Academic Regulations). Additionally, it is required that the student to have achieved an average grade of the subject between 3.5 and 4.9.

The date of the retake exam will be posted in the calendar of evaluation activities of the Faculty. Students who take this exam and pass, will get a grade of 5 for the subject. If the student does not pass the retake, the grade will remain unchanged, and hence, student will fail the course.

Irregularities in evaluation activities

In spite of other disciplinary measures deemed appropriate, and in accordance with current academic regulations, *"in the case that the student makes any irregularity that could lead to a significant variation in the grade of an evaluation activity, it will be graded with a 0, regardless of the disciplinary process that can be instructed. In case of various irregularities occur in the evaluation of the same subject, the final grade of this subject will be 0". **Section 10 of Article 116. Results of the evaluation. (UAB Academic Regulations).***

The proposed evaluation activities may undergo some changes according to the restrictions imposed by the health authorities on on-campus courses
