Use of Languages

Principal working language: catalan (cat)
Some groups entirely in English: Yes
Some groups entirely in Catalan: Yes
Some groups entirely in Spanish: Yes

Prerequisites

UAB establishes two requirements for any student who enrolls in the Final Degree Project course

1. To enroll subjects in the fourth year of undergraduate studies, students must have completed at least all first-year courses and a total of 120 ECTS belonging to the first three years of any degree.
2. To register for the TFG, any student must have completed at least two-thirds of the total number of ECTS of the curriculum (ie 160 credits).

The Faculty additionally recommends that only students who can complete their degree in the same academic year should enroll for the TFG .

Objectives and Contextualisation

The TFG is a "capstone" project. The goal of this project is to produce an original, unpublished and individual piece of work, applying in an integrative way the knowledge and skills acquired throughout the undergraduate program.

Competences

- Capacity for independent learning in the future, gaining more profound knowledge of previous areas or learning new topics.
- Capacity for oral and written communication in Catalan, Spanish and English, which enables synthesis and oral and written presentation of the work carried out.
- Demonstrate a capacity for analysis and synthesis in applying the skills and competencies acquired during the degree course to question in the area of economics or business.
- Demonstrate initiative and work individually when the situation requires it.
- Organise the work in terms of good time management, organisation and planning.
- Select and generate the information necessary for each problem, analyse it and take decisions based on that information.

- Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.
- Students must develop the necessary learning skills in order to undertake further training with a high degree of autonomy.
- Take account of social, economic and environmental impacts when operating within one's own area of knowledge.
- Take sex- or gender-based inequalities into consideration when operating within one's own area of knowledge.

Learning Outcomes

1. A capacity of oral and written communication in Catalan, Spanish and English, which allows them to summarise and present the work conducted both orally and in writing.
2. Capacity to continue future learning independently, acquiring further knowledge and exploring new areas of knowledge.
3. Communicate using language that is not sexist or discriminatory.
4. Consider how gender stereotypes and roles impinge on the exercise of the profession.
5. Demonstrate initiative and work independently when required.
6. Demonstrate the ability to analyse and summarise and to apply the skills and competencies acquired in the degree to a topic in the economic or business field.
7. Identify the social, economic and environmental implications of academic and professional activities within the area of your own knowledge.
8. Organise work, in terms of good time management and organisation and planning.
9. Propose viable projects and actions that promote social, economic and environmental benefits.
10. Propose ways to evaluate projects and actions for improving sustainability.
11. Select and generate the information needed for each problem, analyse it and make decisions based on this information.
12. Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.
13. Students must develop the necessary learning skills in order to undertake further training with a high degree of autonomy.

Content

The TFG must be original and of a theoretical and/or applied nature and should demonstrate the skills, competencies and knowledge acquired by the students.

TFGs of a more applied nature should include a hypothesis supported by a theoretical framework, and/or the resolution of real cases using the techniques and abilities acquired throughout the degree to, either test the hypothesis, or resolve the cases.

In more theoretical TFGs students should make a critical review of the most significant academic and/or professional articles in the area they have chosen, and propose an innovative analysis of the question.

The tutor will provide guidance for the structure of the TFG in accordance with the area of study assigned or chosen.

As far as the final format of the TFG document is concerned, students will follow the recommendations set out in the "Tools and Resources for TFG Writing" course. The tutor may modify these depending on the content of the work. Equally, given the broad variation in TGF it is difficult to establish a minimum and maximum length. However, a 25 pages length is considered adequate. Students' synthesis capabilities will be considered positively.

TFG students will be examined strictly to ensure their ethical integrity, especially in aspects such as plagiarism and falsification

Methodology

The assignment of and guidance for the TFG begins with a class session. This will be given in October (see Calendar) by the degree coordinators who will explain the assignment of the projects and general instructions.

It is desirable to do the course "Tools and Resources for TFG Writing" (if it has not taken before) at the beginning of the semester, as it provides basic tools for the correct development of research and accurate writing of the TFG.

Students carry out their projects individually. If students have a preference for the subject area that is different from that which has been assigned to them they should present their proposal to the tutor and seek permission to modify the content of the TFG. If the tutor agrees students may focus their TFG on the proposed subject. This change should appear in the report sent to the tutor by the student following the first meeting. Under no circumstances the student can change the tutor.

The 4 individual tutorials have the following objectives:

- First meeting with the assigned tutor: definition and initial approach of the TFG in terms of objectives, methodology, sources of information, expected added value, structure, etc.
- Second meeting: follow-up the advances in the development of the TFG according to the planning carried out at the first meeting.
- Third meeting: evaluation of the TFG's first draft and follow-up of the additional advances that have occurred since the first submission.
- Fourth meeting: oral presentation of final project before the tutor.

In case of plagiarism or falsification at any moment the students work will be automatically graded with a zero.

The proposed teaching methodology may undergo some modifications according to the restrictions imposed by the health authorities on on-campus courses.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Orientation session by the degree coordinator and session on how to make a poster presentation	4	0.16	1, 2, 5, 6, 8, 11
Type: Supervised			
Meetings	8	0.32	1, 2, 5, 6, 8, 11
Type: Autonomous			
Course on tools and resources for TFG writing. Elaboration of the work. Preparation of presentations	286	11.44	1, 2, 5, 6, 8, 11

Assessment

In order to be able to submit the TFG, and therefore to have the TFG assessed, the student must be in possession of the certificate of the course "Tools and Resources for TFG writing" on the date indicated in the TFG activities calendar.

The bachelor thesis will be evaluated by the advisor based on both the thesis report written by the student (80%) and the oral presentation of the thesis in front of the advisor (20%). Evaluation of the written part will consist in the assessment of the intermediate delivery (15%) and the final delivery (65%). The advisor will assess each part of the bachelor thesis from 0 to 10 following the assessment criteria established in the evaluation rubric, computing the final grade as the weighted average. This grade will be the one attached in the evaluation report as unless it is higher than 7. In case the final grade is higher than 7, initially a grade of 7 will appear in the evaluation report as there exists the possibility to participate in the Poster Sessions with the objective of increasing this grade. This sessions will consist in presentations of the thesis poster in front of an evaluation panel. Once the evaluation panel qualification is available, it will be incorporad in to the act as long as it is larger than 7.

If the student does not adhere to the tutorization steps agreed by the Faculty that are explained above, and the advisor does not have evidence enough to ensure authorship of the thesis presented by the student, the advisor can reject to evaluate the submitted report.

Bad practice consists in the falsification and/or plagiarism of the TFG, which must be original. Falsification of the TFG occurs in two cases:

- When the submitted project is obtained by order and elaborated by third parties;
- When the results have been falsified.

Plagiarism is the use of ideas, data or content obtained directly from the original authors without citing the source. There are some examples of this:

- Copying the work of other students, regardless of the year, class or institution
- Copying paragraphs, tables, images or graphs from books, journals or other printed sources without citing the source and passing the ideas off as ones own.

(Long citations are not permitted: more than 200 words)

- Presenting the ideas of other authors or organizations as their own

Plagiarism in the TFG does not just mean "copying" in an academic sense but is also a criminal act against intellectual property that has potential legal consequences.

The FEiE will use software to verify the originality of all the TFG projects presented.

Plagiarism or falsification in the TFG results automatically in grade 0, as well as any sanctions provided for this purpose by the UAB and the FEiE

Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Certificate of curs "Tools and Resources for TFG writing, pre-submission (15% of total advisor qualification) and final submission (65% of total advisor qualification)	56%	0	0	1, 2, 3, 5, 6, 7, 8, 10, 9, 13,

				12, 11, 4
Oral presentation	14%	1	0.04	1, 2, 5, 6, 8, 11
Poster	30%	1	0.04	1, 2, 5, 6, 8, 11

Bibliography
