## **Content**

### - The communication of science

- Scientific journalism
- What is health?
- .Focus
- .History
- Social determinants
- . Lifestyles. Autonomy of the patient. Patient associations.
- The epidemiology
- Scientific rhetoric and bullies
- Communication and health
- Health journalism
- History of the same in Spain
- How is health reported?
- .the traditional media
- .Internet
- As you write about health
- .The techniques
- .The science
- .Ethics
- . Conflicts of interests
- Health from a gender perspective
- Case studies: cancer; HIV / AIDS; eating disorders; diabetes Patient's ε

## **Methodology**

- Directed activities:
  - a) Lectures: explanation of the theoretical and practical concepts.
  - b) Seminars. Its objective is to deepen -with working groups and specific activities-
  - c) Practices in computer classrooms: the main objective is to make informed decisions based on the information provided by the teacher.
- Supervised activities:
  - a) Individual or group face-to-face tutorials. Its purpose is to solve learning difficulties.
  - Autonomous work.
- a) They must carry out the readings indicated as obligatory and all the activities proposed by the teacher.
- Evaluation activities (a face-to-face session will be used to carry out a self-evaluation of the student's performance).

The calendar will be available on the first day of class. Students will find all information on the Virtual Campus: the description of the activities, teaching materials, and any necessary information for the proper follow-up of the subject. In case of a change of teaching modality for health reasons, teachers will make readjustments in the schedule and methodologies.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

## Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Laboratory practices	18	0.72	3, 13, 4, 6, 7, 8, 10, 11, 12
Exam	3	0.12	6
Master class	12	0.48	1, 9, 10, 5
Seminars	9	0.36	2, 8, 9, 10, 12
Type: Supervised			
Tutorials	6	0.24	8
Type: Autonomous			
Autonomous work.	65	2.6	13, 6

## Assessment

Jobs. It will consist of creating a web and a communication plan (in a group) for a patient association. The final product will be evaluated according to the following criteria:

Each seminar will include an individual evaluation test (critical reading, synthesis, etc.)

The self-assessment - at the end of the course - will mean 20% of the grade. Re-evaluation may be presented to those who, having done all the evaluations, consider it necessary.

The proposed teaching methodology and evaluation activities may undergo some modifications depending on the needs of the students.

## Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Laboratory practices	50%	25	1	3, 13, 4, 6, 7, 8, 9, 10, 11, 12
Evaluation	20%	3	0.12	3, 13, 4, 6, 7, 8, 11, 12
Seminars	30%	9	0.36	1, 2, 13, 8, 9, 10, 5
