Prerequisites

To access the internship course, It is necessary to have have passed all the first-year subjects and passed 120 ECTS credits (total at least)

Objectives and Contextualisation

The general training objective of the subject is for the student to put into practice and apply the skills acquired through the other subjects included in the study plan in the work environment. At the end of the module, the student is expected to be able to:

1. Identify the agents and resources necessary to respond to the needs of prevention management and comprehensive security;

2. Understand the elements involved in the efficient management of technology in security operations;

3. Analyze and critically assess preventive security interventions;

4. Participate in the application of the basic procedures related to the efficient management of technology in security operations;

5. Actively participate in the development and / or implementation of projects that provide comprehensive responses to security problems;

6. Actively participate in the identification and evaluation of the possible effects of the interventions;

7. Actively integrate and work in multi or interdisciplinary teams; 8. Communicate the results of the analysis of a preventive intervention to other professionals and clients.

The practical module is scheduled for the second semester, but it can be made more flexible when it is carried out if the academic managers consider it convenient.

In any case, its evaluation is carried out during the month of June.

Those people who wish to do this subject before starting the second semester should request it to the Degree Coordination: coordinator.grau.epsi@uab.cat and argue the reasons that motivate them to do so.

In no case the completion of the practices can be a reason for non-compliance in any other of the subjects for which you are enrolled at the School.

Competences

- Assume the social, ethical and professional responsibility that derives from professional practice.
- Be able to adapt to unexpected situations.
- Be able to communicate efficiently in English, both orally and in writing.
- Carry out analyses of preventative measures in the area of security.
- Efficiently manage technology in security operations.
- Generate innovative and competitive proposals in research and in professional activity developing curiosity and creativity.
- Identify the resources necessary to respond to management needs for prevention and integral security.
- Identify, manage and resolve conflicts.
- Maintain a positive attitude with respect to professional and personal growth.
- Respond to problems applying knowledge to practice.
- Show respect for diversity and the plurality of ideas, people and situations.
- Use the capacity for analysis and synthesis to solve problems.
- Work and learn autonomously.
- Work in institutional and interprofessional networks.

Learning Outcomes

Content

The practical course covers the areas of:

Public security

Labour safety

Community Safety

Private security

Private Detective (In the case of a private detective, the subject will be structured as a simulation since the regula

Methodology

- These placements have a duration of 300 hours.
- The subject also includes 10 hours of classes

Selection

- All the available offers of placements appear on the Moodle for External Placements, together with a description.
- The company will phone the selected students for the interview stage.

Signing the agreement

Once the company has informed the student that they are accepted, the student should contact the Jobs Bank and Placements Unit (practiques.alumnes.fuab@uab.cat) to sign the agreement which specifies that this is a curricular placement.

The agreement is a document containing the rights and obligations of both parties (company, student and school) in relation to the placement period. It is essential that all parties sign the agreement in order to begin the placement.

Once the director of the centre has signed the agreement, the student should take three copies, sign them and take them to be signed by the person responsible at the company. Of the three signed copies, the company will keep one, the student another and the third must be returned to the Jobs Bank and Placements Unit of the school.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Internship	300	12	2, 11, 1, 3, 12, 4, 9, 5, 6, 7, 8, 10, 15, 14, 13

Assessment

During the placement

- Once the student has undertaken 50% of the placement, they must write a report using the model document on Moodle and send it to the placement tutor. The tutor in the company must also send a report to the school. Both model documents are available on the External Placement Moodle.

- In the case of any kind of incident, the student must contact the tutor or the Jobs Bank and Placements Unit, which will decide on the best way to handle it.

End of the placement

- Once the placement period has finished, the student must send a final report using the model document which is an annexe to the agreement and send it to the placement tutor. The tutor at the company tutor must also send a final report to the school. The model documents are also available on the Moodle for External Placements.

- The grade for the placement will be available at the end of June in accordance with the criteria that appears in the course guide.

Recognition of External Placement

Curricular placements can be recognised for those students who can accredit any work experience lasting longer than one year in the areas covered by the placements.

To do so they must make an application to the Academic Management office accompanied by an official employment record showing their experience in the sector and the post in their curricular specialisation:

- Risk prevention officer
- Private security company
- Public security company
