**Objectius**

Este módulo aborda las grandes fracturas y dinámicas que atraviesan este espacio heterogéneo que es el mundo árabe, y en las que se sitúan los fenómenos políticos y sociales distintivos de la región. Dicho análisis se realiza a diferentes niveles (nacional, regional e internacional), otorgando especial énfasis en la vinculación entre ellos en los ámbitos de la seguridad y la gobernanza. De esta manera se estudia, por un lado, la naturaleza compleja de la seguridad nacional e internacional contemporánea en el conjunto del mundo árabe, en todas sus vertientes y los componentes cruciales del régimen de seguridad en la región. Por otra se analizan las características del desarrollo político, social y económico del conjunto de la región y de sus sociedades en particular y su adecuación a la gobernanza.

- Aplicar els instruments metodològics necessaris per a l'anàlisi sistemàtica i rigorosa de les relacions internacionals (observació, comparació, formulació d'hipòtesi, etc.), així com les eines d'intervenció (elaboració de polítiques i estratègies, la planificació, tècniques de negociació i mediació, etc.).
- Buscar informació en la literatura científica fent servir els canals apropiats i integrar aquesta informació per plantejar i contextualitzar un tema de recerca.
- Que els estudiants sàpiguin aplicar els coneixements adquirits i la seva capacitat de resolució de problemes en entorns nous o poc coneguts dins de contextos més amplis (o multidisciplinaris) relacionats amb la seva àrea d'estudi.
- Que els estudiants sàpiguin comunicar les seves conclusions, així com els coneixements i les raons últimes que les fonamenten, a públics especialitzats i no especialitzats d'una manera clara i sense ambigüitats
- Tenir coneixements que aportin la base o l'oportunitat de ser originals en el desenvolupament o l'aplicació d'idees, sovint en un context de recerca
