Prerequisites

This course has no prerequisites.

Objectives and Contextualisation

The aim of the course is to provide an introduction to musical instruments, their history, their individual characteristics and their classification.

This introduction focuses on:

- An overview of the main currents of organology.
- An overview of the classification of musical instruments.
- The identification of the different families of musical instruments.
- The social and historical contextualization of musical instruments.

Competences

- Identify and compare the different channels of reception and consumption of music in society and in culture in each period.
- Identify the historical functioning and evolution of musical instruments.
- Recognise and appreciate musical manifestations in non-western, traditional, popular and urban cultures.
- Students must be capable of applying their knowledge to their work or vocation in a professional way and they should have building arguments and problem resolution skills within their area of study.
- Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.

Learning Outcomes

1. Applying the knowledge of cultural variability and its genesis to avoid ethnocentric projections.
2. Demonstrate basic knowledge of research methodology in the field of organology.

3. Identify and situate in the consumption of music in each period and each culture the corresponding musical instruments.
4. Identify and situate the main musical instrument in non-western, traditional, popular and urban cultures.
5. Identify the main concepts related to organology as well as the vocabulary specific to it.
6. Integrate knowledge acquired in the production of clear and concise appropriate to the academic and specialist communication.
7. Locate the main types of musical instrument in their correct historical context.
8. Prepare oral presentations on an analytical question and adapt them to the level and expectations of the audience or group.
9. Produce correct, precise and clear argumental and terminological writing of knowledge acquired, both in the area of musical specialisation and dissemination.
10. Use basic vocabulary and tools to describe and transmit knowledge acquired through effective oral presentations of musicological content adapted to the audience.
11. Value and manage the main documentary and archive sources related to music instruments.

Content

I- Organology and classification of musical instruments:

 - 2.2. Reed instruments
 - 2.3. Labrosone instruments
3. Membranophones
4. Idiophones
5. Electrophones

Methodology

Several teaching-learning strategies will be combined in order to achieve the objectives of the course:

- Lectures: teacher will explain the basic concepts of the subject.
- Practical activities and tasks: students will work individually or in small groups to solve practical activities.
- External lecturers: external lecturers can be occasionally invited to bring their expertise on a particular issue.
- A visit to the Museu de la Música or other institutions will be scheduled, if possible.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Classroom discussions	9	0.36	1, 2, 5, 4, 3, 7, 10, 11
External lecturers	3	0.12	5, 4, 3, 7, 11
Lectures	24	0.96	5, 4, 3, 7, 11
Type: Supervised			
Oral and written tasks (individual)	6	0.24	1, 2, 5, 4, 3, 6, 8, 10, 11
Oral discussions and written tasks (group)	6	0.24	1, 2, 5, 4, 3, 6, 8, 7, 10, 11
Type: Autonomous			
Readings	28	1.12	1, 9, 2, 5, 4, 3, 7, 11
Study	50	2	1, 2, 5, 4, 3, 7, 11

Assessment

- a. Written test on the classification of musical instruments (40%) [it will be held mid-semester]
- b. Written exam on Western musical instruments (35%) [it will be held at the end of the semester]
- c. Exercise(s) on bowed instruments (15%) [it will be held during the 3rd month of the semester].
- d. Participation in classroom discussions, group tasks and presentations (5%)
- e. Class attendance (5%) [a minimum of 80% is required for acceptable attendance]

Grade revision process

After each assessable item is given a grade, students will be informed of the date and way in which they will be published. Students will also be informed of the procedure, place, date and time of grade revision (following University regulations).

Resitting Process

A resit will be held for students whose grade average is lower than 5 points out of 10. However, in order to take part in the resit, students must have been previously assessed in, at least, 80% of the assessment activities. The date of the resit exam will be posted in the calendar of the Faculty assessment activities.

Non-assessable

A student submitting less than 50% of grading tasks, will be considered as 'non-assessable'.

Important: In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.
