Use of Languages

Principal working language: catalan (cat)
Some groups entirely in English: No
Some groups entirely in Catalan: Yes
Some groups entirely in Spanish: No

Prerequisites

Taking Practicum I, II and III courses previously is recommended.
In order to take this course it is mandatory to hold the negative certificate from the Sex Offender Registry. The student is the unique responsible to get and present it to the center before the internship starts.

Objectives and Contextualisation

Fourth practices (Practicum IV) are designed so that students know and integrate into an intervention project designed between school and faculty. The projects will be carried out both in centers 0-3 years, as in the Nursery School (3-6). Students will design and carry out an educational project within the center.

This course is taught by teachers of different educational areas: Social Sciences, Music, Plastic and Body Expression, Experimental Sciences, Mathematics, Language and Literature; and also of Applied Psychology and Pedagogy. Its design and location in the Curriculum allows relations to the subjects studied throughout the entire degree.

Objectives:

1. Know the educational reality of a school for 0-3 or 3-6 y.o.
2. Analyze the reality of the school and design a suitable project intervention.
3. Carry out the project designed and evaluate the process.

Competences

- Accept that the exercise of the teaching function must be refined and adapted lifelong to scientific, educational and social changes.
- Act with ethical responsibility and respect for fundamental rights and duties, diversity and democratic values.
- Analyse and recognize one's own socio-emotional skills (in terms of strengths, potentials and weaknesses) to develop those necessary for work and professional development.
- Consider classroom practical work to innovate and improve teaching.
- Deal effectively with language learning situations in multicultural and multilingual contexts.
- Demonstrate knowledge of quality improvement models with application to schools.

- Demonstrate knowledge of the evolution of the educational implications of the information and communications technology and in particular of television in early childhood.
- Design and regulate learning spaces in diverse contexts which attend to the particular issues of pupils regarding gender equality, equity and respect for human rights.
- Make changes to methods and processes in the area of knowledge in order to provide innovative responses to society's needs and demands.
- Manage information related to the professional environment for decision-making and reporting.
- Master social skills in dealing and relating with the family of each pupil and all families.
- Participate and get involved in the events, meetings and events of the institution to which one belongs.
- Participate in teaching and learn to do, act and reflect through practice.
- Participating in the proposed improvements in the different areas of action that can be established in a centre.
- Promote and facilitate early infant learning, from a global and integrative perspective of different cognitive, emotional, psychomotor and developmental dimensions.
- Promote coexistence in and outside of the classroom and address the peaceful resolution of conflicts.
- Promote the autonomy and uniqueness of each pupil as factors of education in emotions, feelings and values in early childhood.
- Systematically observe learning and coexistence contexts and learn to reflect on them.
- Take account of social, economic and environmental impacts when operating within one's own area of knowledge.
- Take sex- or gender-based inequalities into consideration when operating within one's own area of knowledge.
- Understand forms of collaboration with different sectors of the education community and the social environment.
- Work in teams and with teams (in the same field or interdisciplinary).

Learning Outcomes

1. Accept the cultural and linguistic diversity of the classroom and act with respect.
2. Attend as many of the centre's programming and coordination meetings as possible.
3. Collecting and analysing data from the direct observation of the classroom and of the documents from the centre.
4. Collecting and analysing data from the direct observation of the classroom in order to create a learning sequence proposal adapted to the specific and innovative environment.
5. Construct guides and observation guidelines.
6. Demonstrating a knowledge of the centre's improvement plans.
7. Design and apply actions to strengthen the weaknesses identified to improve professional development.
8. Design, apply and evaluate a learning sequence that respects the globality and uniqueness of each child.
9. Detect situations of conflict and act in observance of mediation criteria.
10. Identifying strengths and weaknesses and setting personal milestones in the emotional sphere.
11. Implement and evaluate a teaching design.
12. Make a study of the reasons and advantages of innovation at school and discuss them with colleagues at a seminar.
13. Make project proposals taking into account the diversity of the school context.
14. Making proposals for teaching and evaluative activities in accordance with the stated values.
15. Observing and intervening in the greatest possible number of school situations where students' relatives participate.
16. Participating actively in the meetings between representatives of the school, university and students.
17. Periodically collecting and analysing in writing the personal reactions and impressions of your stay at the school.
18. Propose new methods or well-founded alternative solutions.
19. Propose new ways to measure the success or failure of the implementation of innovative proposals or ideas.
20. Propose projects and actions that are in accordance with the principles of ethical responsibility and respect for fundamental rights and obligations, diversity and democratic values.
21. Propose projects and actions that incorporate the gender perspective.
22. Propose viable projects and actions to boost social, economic and environmental benefits.

23. Provide integrated responses to complex educational phenomena.
24. Reflexively describe the dynamics of different meetings and events that one has participated in.
25. Share specific knowledge with other professionals to ensure a better product or solution.
26. Using new technologies in the design of activities and in the final oral report on the practicum.
27. Using the results of the analyses carried out in order to make decisions about how to act.

Content

1. Analysis and Diagnosis

Observe and identify potential needs or improvements to school, classroom or cycle.

Agree on a proposed agreement with the school and the university tutor.

Agreed project objectives

2. Concept and Design

Write the conceptual framework that justifies the proposal

Design the project

Develop the project schedule

3.- Use of oral and written Catalan appropriate to the academic context.

4.- Development and Experimentation

Describe the implementation of the project

Reflect on the process and progress

Evaluate the project in relation to the objectives

5. Reflection and professional evaluation

Self-analysis and self-regulation of professional practice and learning processes

Noted possible implications of the experience for future professional practice

Methodology

Activity and dedication	Description of activities
Seminars and tutorials	Meetings preparation practicum.
22 hours	Seminars for exchange, discussion and evaluation processes designed in small groups. Lectures and workshops on specific topics of practicum. Individual tutorials. Preparing documents derived from the type of project practicum. Oral presentations of papers, assessments and conclusions.
Stay in the center of practices	Observe the different realities of school, reporting, analysis of documents. Study everyday situations in schools and teacher exchanges with the center.
203 hours	Collaboration in conducting classroom activities and teaching staff and management center. Negotiation for defining and carrying out of practices (Type A, B or C). Doing the tasks arising from the type of project practicum (Service Learning; school project; intervention unit). It includes monitoring of activities of the reference group at school and the activities of the tutor / outside the classroom: meetings, interviews, programming... Preparation of daily field notes and observation.
Autonomous activity	Recommended reading. Analysis and study of school reality Design the intervention project.

75 hours Preparation the final report or dossier.
Preparing oral presentations.

Total 300 h

Type A: Intervention Unit

Type B: School Project

Type C: Service Learning

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Seminars and tutorials	22	0.88	5
School practice	203	8.12	8
Type: Autonomous			
Autonomous activity	75	3	17

Assessment

Evaluation of three individual indicators:

1. Written report of the practice
2. Seminars and public presentation -seminars participation (60%) and last session of PIV (40%).
3. Report of the center

To pass the course must be passed each indicator separately. A result <5 (10) to memory, to report or participation in seminars indicates that repeat practicum IV.

In the event that one block of activities is failed and the average with the other blocks is higher than 5, by default the final grade of the internship will be 4.

The final report has to be delivered via moodle.

In case it needs to be marked again the deadline will be in tow weeks. The evaluation of the stay in the centre of practices and the seminars can not be repetead.

The seminar attendance is mandatory: Students must attend at least 90% of seminars, otherwise it will be considered absent.

Attendance in person at the school is a prerequisite. It should have been a minimum of 203h. of attendance.

At any time during school internship, the school can produce a justified report where it evidence that the student cannot continue doing the practicum. If this happens, this student will automatically not pass the practicum (the numerical qualification that will remain will be a 3).

If the student gives up the practicum without giving proper reasons the mark will be 0.

The results of each one of the evaluations will be returned to the students within the maximum period of 4 weeks after its delivery, and a review date will be offered in the days following its publication.

To pass this course, the student must show, in the activities offered to them, a good general communicative competence, both orally and in writing and a good command of the language and communication language contained in the syllabus. Reports with serious misspellings and syntax errors will lead to suspend the subject.

Also, the student must show personal and professional competencies such as: respect, cooperation, empathy, appropriate use of the cell phone, punctuality, not judge, argue, etc.

Any plagiarism in work submitted will lead to fail the course.

In order to adapt the calendar or to do the internship in the workplace, it is necessary to comply with the criteria established by the regulations and request it through the procedures of the Faculty reported on the website.

The calendar of the internship, the seminars and some aspects of the memory of this practicum can vary for those students who do it linked to a National or International stay through the UAB exchange programme Bressola, Richmond, Munich ...), an ERASMUS or SICUE programme.

Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Report of the center	33,3%	0	0	1, 2, 25, 9, 7, 8, 11, 13, 15, 16, 18, 19, 20, 21, 22
Seminars and public presentation	33,3%	0	0	25, 5, 24, 9, 8, 23, 14, 12, 10, 6, 16, 4, 17, 26
Written report of the practice	33,4%	0	0	5, 8, 11, 18, 19, 20, 21, 22, 3, 27
