Practices, cases, problems and exercises will be distributed along all the subject, with requirements concerning scheduling and delivering. Feed back and following up of activities will be done within the current month of delivery.

Students with a successfull follow-up of the subject and with some pending assignment will be allowed to pass the subject though the redesign or improvement of those failed assignments.

Copy of any part of an assignment, essays or examinations will lead to "failed" as a final result. Consult [http://wuster.uab.es/web\\_argumenta\\_obert/unit\\_20/sot\\_2\\_01.html](http://wuster.uab.es/web_argumenta_obert/unit_20/sot_2_01.html).

In all the activities (individual and in group) the linguistic correction, the writing and the formal aspects of presentation will be taken into account. Students must be able to express themselves fluently and correctly and must show a high degree of understanding of academic texts. An activity can be returned (not evaluated) or suspended if the teacher considers that it does not meet these requirements. For this reason, before submitting a learning evidence, check that the sources, notes, citations and bibliographic references have been correctly written following the APA regulations. and according to the documentation that is summarized in UAB sources:
