## Objectives and Contextualisation

According to the Degree Program of History, the subject "Universal Contemporary History" aims to train students by giving them the necessary resources and tools to acquire a solid knowledge of the political, institutional, economic-social and cultural changes in the world, and the factors that explain them, from the late eighteenth century to the end of the twentieth, taking into account the different interpretations and historiographical debates that they generate. The matter is structured in three broad periods: the era of the liberal revolution, which includes the unification of Germany and Italy, that of imperialism, which includes the colonial expansion of the late nineteenth century, the two world wars and the rise of fascism in the period between the wars, and the stage of division into blocks and of decolonization ".

The subject "Universal Contemporary History II: The Age of Imperialism", within the objectives set for the subject Universal Contemporary History, will analyze, among others, the following questions: The liberal states and imperialist expansion, the cultural crisis of the turn of the century, the Great War, the Russian Revolution, the establishment of liberal-democratic regimes in the interwar period -and its crisis-, international relations in the interwar period, the emergence of fascism, the Great Depression, the political crisis, diplomatic and the

military of the thirties and the Second World War. The European dynamics will be analyzed fundamentally, but without leaving aside various extra-European areas, among others, the United States, China and Japan, etc.

## Assessment

Evaluation activities:

The final grade of the subject will respond to the qualification of the following activities:

70% two written exams, 35% each one.

30% comments on historical texts, oral exams or collective expositions.

Evaluation criteria:

The acquired knowledge will be valued, the mastery of the concepts and the vocabulary of the discipline and of the studied matter, the maturity, the structure and the formal correction of the texts written the exams and works; in the case of oral presentations: the fluency of the discourse, its suitability to the presented topic, the structure of the presentation, the materials used, the correct use of time, etc.

Conditions to approve the subject:

The subject is approved if a minimum of 5 points (out of 10) is obtained with the sum of the grades of all the evaluation activities carried out.

To participate in the recovery, students must have obtained a grade of 3 on average in the tests and activities of the continuous assessment.

Any irregularity committed by a student during a test (copy, plagiarism) will imply a grade of zero in the specific evaluation section. Several irregularities committed will imply a global score of zero.

Schedule of evaluation activities:

The evaluation activities will be scheduled throughout the academic year. The dates of completion of the tests in the classroom and delivery of works and reviews will be communicated to students in advance. The teacher will establish a specific schedule of tutorials to proceed with the comment of the evaluation activities carried out.

Recovery

It will consist of a global examination of the subject matter and will be held on the official dates established by the Faculty. In no case may recovery be considered as a means of improving the qualification of students who have already passed the subject in the normal process of continuous assessment. The maximum grade that can be obtained in the recovery is 5.0 (Approved).

At the time of completion/delivery of each assessment activity, the teacher will inform (Moodle, SIA) of the procedure and date of revision of the grades.

Students will obtain a Not assessed/Not submitted course grade unless they have submitted more than 1/3 of the assessment items.

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.

**JUST ONE EVALUATION**

Students who decides to use only 1 evaluation must prove that they have acquired the same competences acquired by the rest of students, who have opted for a continuous evaluation.

Exams will be done in just one day.

Students will have two assessments: first, a written exam (50%), and, second, an oral examination (expositions of a subject, comments on maps, statistics...etc.).

Recovery will be as the recovery for the rest of students (continuous evaluation). Students will have the right to recovery if they have submitted the whole assessments. And they must have obtained a grade of 3.
