Methodology

- Lectures will offer a general aesthetic introduction into the contents of each unit and will be complementary with the analytical comment of a selection of representative texts and/or music examples. At the beginning of each unit, a short anthology of texts will be provided (through the subject's Aula Moodle); its reading and comment is the main autonomous task of the student, as they will be discussed as a regular in-class activity.
- In early February, an Aula Moodle will be opened as the only repository of the teaching materials and links needed for the preparation of the subject, according to its general schedule and to the legal © regulations. In

this sense, this Aula Moodle is the reference space for the activities of the subject and for the communications related to it; any question concerning the subject is to be submitted, therefore, through Aula Moodle's mail and the lecturer will not answer enquiries sent to his main E-mail address.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Assessment

Assessable activities are as follows:

- Intermediate exam (Text commentary) [pre-scheduled date: April 9, 2024].
- Final exam [pre-scheduled date: June 13, 2024].
- Review of a musicological essay or book chapter, chosen from a selection which will be proposed to the students, through the subject's Aula Moodle, by mid March 2024. At this moment, additional information on the task's deadline and main features (methodology, length, layout...) will be provided.

All assessment activities are obligatory and independent. Following the academic schedule established by the Faculty, students may retake assessment activities they have failed or compensate for any they have missed, provided that they have actually performed account for a minimum of 70% of the subject's final mark, and after discussing this possibility with the lecturer. The highest mark for these retaken activities is 6.

When publishing intermediate and final marks prior to recording them on students' transcripts, the lecturer will provide written notification of the procedure, date, and time for reviewing assessment activities. Students must arrange reviews in agreement with the lecturer.

In the event of the assessment activities a student has performed accounting for just 30% or less of the subject's final mark, their work will be classified as "not assessable" on their transcript.

IMPORTANT NOTICES

In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

In the event that tests or exams cannot be taken onsite, they will be adapted to an online format made available through the UAB's virtual tools (original weighting will be maintained). Homework, activities and class participation will be carried out through forums, wikis and/or discussion on Teams, etc. Lecturers will ensure that students are able to access these virtual tools, or will offer them feasible alternatives.

SINGLE ASSESSMENT [pre-scheduled date: June 18, 2024]: 1) Concept test [30%]; 2) Historical/contextual test [30%]; 3) Review of a musicological chapter or article [40%]. The same assessment method as continuous assessment will be used in the event of retaken or compensated failed activities.
