## Content

### Part 1 - Artistic tradition in East Asia

The first part of the subject presents artistic tradition in East Asia (China, Japan and Korea). We will see how aesthetic ideas and artistic practices have spread throughout this geographic region. We will firstly focus on artistic production related to religion and its rituals, and then on painting and calligraphy, exploring the main aesthetic concepts of literati art. As both the aspects of artistic tradition in question also constitute social practices, we will analyse their links with local daily life.

### Part 2 - Modern and contemporary art in East Asia

In the second part of the subject we will analyse the main trends in modern and contemporary art in East Asia. We will focus on the most notable artists and artistic movements to understand how artistic production has evolved in the last century. We will analyze the global influences on the development of local art from the 19th century onwards, and how artistic production in the last century has been highly conditioned by and constantly related to major changes in East Asian societies.

## Methodology

To achieve the established objectives, this subject mainly involves lectures. Particular emphasis will be placed on the analysis of artworks and primary and secondary sources, in which the active participation of students, through comments, discussions and debates, will be fundamental. The work students carry out will mainly consist of group presentations, debates and discussions, written assignments, and a series of exams. Over the course of the semester the lecturer will hold individual and/or group tutorials to help students with their work.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

## Assessment

### Continuous assessment

Students must provide evidence of their progress by completing various tasks and tests. These activities are detailed in the table at the end of this section of the Study Guide.

### Review

When publishing final marks prior to recording them on students' transcripts, the lecturer will provide written notification of a date and time for reviewing assessment activities. Students must arrange reviews in agreement with the lecturer.

### Missed/failed assessment activities

Students may retake assessment activities they have failed or compensate for any they have missed, provided that those they have actually performed account for a minimum of 66.6% (two thirds) of the subject's final mark and that they have a weighted average mark of at least 3.5.

The lecturer will inform students of the procedure involved, in writing, when publishing final marks prior to recording them on transcripts. The lecturer may set one assignment per failed or missed assessment activity or

a single assignment to cover a number of such activities. Under no circumstances may an assessment activity worth 100% of the final mark be retaken or compensated for. In case of retaking, maximum grade will be 5 (Pass).

Classification as "not assessable"

In the event of the assessment activities a student has performed accounting for just 25% or less of the subject's final mark, their work will be classified as "not assessable" on their transcript.

Misconduct in assessment activities

Students who engage in misconduct (plagiarism, copying, personation, etc.) in an assessment activity will receive a mark of "0" for the activity in question. In the case of misconduct in more than one assessment activity, the student involved will be given a final mark of "0" for the subject. Assessment activities in which irregularities have occurred (e.g. plagiarism, copying, impersonation) are excluded from recovery.

### Evaluation activities

30% Written exam

*A written exam on the contents of both parts of the subject.*

20% Individual written assignment

*Individual written analysis of one of various artworks selected by the lecturer.*

30% Group work

*Preparation, in groups, of a cultural promotion product (more details will be given in classes).*

20% Seminars' reports

*A written assignment related with the seminars on the subject's contents held over the semester.*

### Single assessment

This subject may be assessed under the single assessment system in accordance with the terms established in the academic regulations of the UAB and the assessment criteria of the Faculty of Translation and Interpreting.

Students must make an online request within the period established by the faculty and send a copy to the teacher responsible for the subject, for the record.

Single assessment will be carried out in person on one day during week 16 or 17 of the semester. The Academic Management Office will publish the exact date and time on the faculty website.

On the day of the single assessment, teaching staff will ask the student for identification, which should be presented as a valid identification document with a recent photograph (student card, DNI/NIE or passport).

Single assessment activities

The final grade for the subject will be calculated according to the following percentages:

40% Individual assignment

*Individual written analysis of one of various topics selected by the lecturer.*

30% Exam

*A written exam on the contents of the subject.*

30% Practical assignment

Preparation and oral presentation of a cultural promotion product.

Grade revision and resit procedures for the subject are the same as those for continual assessment. See the section above in this study guide.
