Prerequisites

There are no prerequisites for this course.

Objectives and Contextualisation

This course is contextualized together with Cost Management Systems within the subject Accounting, and is taught in the second semester of the first year of the Degree in Business and Technology. It is prior and preparatory to be able to take the subject of Cost Management Systems.

The main aims of this first course are:

- To understand the fundamentals of accounting and its conceptual framework: regulations, principles and valuation criteria.
- To learn how to develop the accounting process or cycle of a company: operations of the company with the outside world.
- To determine the result for the year and to present the annual accounts in accordance with the current General Accounting Plan.

- To understand the economic and financial situation of the company (how to read and interpret the basic annual accounts).

Competences

- Act with ethical responsibility and respect for fundamental rights and duties, diversity and democratic values.
- Analysing, diagnosing, supporting and taking decisions in terms of organisational structure and business management.
- Capacity for working in teams.
- Demonstrating a comprehension of the ethical values of the professional practice, especially in relation to the processing of information.
- Demonstrating a comprehension of the principles, structure, organisation and inner workings of companies and organisations.
- Developing self-learning strategies.
- Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.

Learning Outcomes

1. Communicating with experts of other fields and non-experts.
2. Defining and discussing the privacy of financial-tax information.
3. Describing information about the annual accounts.
4. Describing the accounting process in order to draw up annual accounts.
5. Developing self-learning strategies.
6. Distinguish the main applicable accounting principles in the current General Accounting Plan.
7. Explain the explicit or implicit code of practice of one's own area of knowledge.
8. Identifying the economic transactions and assessing the flows intervening in accordance with the valuation rules of the General Accounting Plan.
9. Producing financial statements and reports for accounting, fiscal, financial and organisational purposes.
10. Specifying the utility of accounting according to the potential users.
11. Summarising the accounting information and presenting it through annual accounts.
12. Working in teams, sharing knowledge and communicating it to the rest of the team and the organisation.

Content

1. The role of legal societies in general economic activity.

- The choice of activities by individuals.
- The social environment: rights.
- Analysis of transactions.
- Stages of productive activity. The economic benefit

2. Accounting as an information system. The accounting regulation and the conceptual framework of the General Accounting Plan.

- The accounting information.
- Concept of accounting of economic units and scope of application.
- The users of the accounting of the company.
- The costs of accounting information.

- Accounting regulation and regulatory bodies.
- The Spanish General Accounting Plan.
- The conceptual framework

3. The accounting method.

- The accounting method.
- Analysis of data.
- Accounting records of transactions.
- Synthesis information. Patrimony
- The balance sheet
- The accounting process or cycle.

4. The registration of transactions.

- The transactions of companies.
- The valuation of the magnitudes.
- Accounting of transactions.
- The balance of sums and balances.
- Introduction to the accounting of the result.

5. The accounting result.

- The concept of result.
- The formation of the result.
- Valuation and variation of stocks.
- Periodification of income and expenses.
- Amortization (valuation of intakes of fixed assets).
- Provisions (impairments).
- Compensation of expenses.
- The process of accounting regularization.

6. The annual accounts.

- The preparation of the annual accounts.
- Presentation rules.
- The balance sheet
- The profit and loss account (PyG).
- The statement of changes in equity (ECPN).
- The statement of cash flows (EFE).
- The memory.
- Abbreviated models of annual accounts.
- Verification of the annual accounts.

7. Value Added Tax

- The concept of Value Added Tax (VAT).
- Accounting treatment of VAT.

8. Economic financial analysis of the financial statements.

- Basic analysis techniques.
- Solvency analysis (short term).

Methodology

To achieve the objectives of the course, the following taxonomy of activities will be used:

1. *Theory classes where teachers develop the main concepts:* the objective of this activity is to present the fundamental concepts of the course and to facilitate their learning through the analysis of examples illustrating the main issues of the different topics analysed.

2. *Exercises sessions devoted to the resolution of practical exercises:* this activity aims to discuss and answer any questions that students may have in solving the problem sets, and at the same time to correct mistakes. These sessions will also stimulate the participation of students presenting the solutions of the problem sets either orally or in written form.

3. *Tutorial attendance:* Students have several hours where the teachers of the course may help them to resolve any doubts that may arise in the study of the course and in the solution of the problem sets.

4. *Autonomous working:* Students work on their own studying the main concepts and solving the exercises proposed in the class.

"The proposed teaching methodology may undergo some modifications according to the restrictions imposed by the health authorities on on-campus courses".

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Class sessions (theory)	32.5	1.3	2, 3, 4, 6, 8, 9, 10, 11
Practical lectures, analysis, presentation and debate of cases and group work	17	0.68	2, 3, 4, 6, 8, 9, 10, 11
Type: Supervised			
Tutorials of practical cases and course work	15	0.6	8, 9
Type: Autonomous			
Preparation and elaboration of teamwork	15	0.6	12
Resolution of exercises and cases	32	1.28	5
Study and research	35	1.4	1, 7

Assessment

The continuous assessment of the student will be based on the following four points or activities:

1. Resolution and individual presentation of cases and / or practical exercises on the content of the subject, inside term. (10% of the total grade).
2. Partial test (28% of the total mark), in principle relating to topics 1, 2, 3 and 4
3. Final test (50% of the total mark), focused on topics 5, 6 and 7
4. Work and / or additional test: centered in the content of the subject 8, (10% of the total mark).

5. Work and / or additional test: accounting and gender (2% of the total mark).

All students have the obligation to perform the assessable tasks. To pass the course, you must pass the different types of assessment. The qualification of the activities (1, 2, 4 and 5) will be able to be compensated from a mark of 3.5 as long as in the final exam a mark superior or equal to 5 has been obtained. the student is 5 or higher, the subject is considered passed and this will not be able to be object of a new evaluation.

In the case of a grade of less than 3.5 in the final exam, the student must repeat the subject in the next year. For those students whose final exam grade is equal to or greater than 3.5 and less than 5 may take the reevaluation test. The teachers of the subject will decide the modality of this test. When the mark of the test of recovery is equal or upper to 5, the final qualification of the subject will be of APPROVED being the maximum numerical note a 5. When the note of the proof of recovery is inferior to 5, the final qualification of the subject will be SUSPENSION.

A student who does not present any evaluable activity is considered non-evaluable, therefore, a student who performs some component of continuous assessment can no longer be qualified as "non-evaluable".

Calendar of evaluation activities

The dates of the evaluation activities (exercises in the classroom, assignments, ...) will be announced well in advanceduring the semester.

The dates of the midterm and final exams are scheduled in the assessment calendar of the Faculty.

"The dates of evaluation activities cannot be modified, unless there is an exceptional and duly justified reason why an evaluation activity cannot be carried out. In this case, the degree coordinator will contact both the teaching staff and the affected student, and a new date will be scheduled within the same academic period to make up for the missed evaluation activity." **Section 1 of Article 115. Calendar of evaluation activities (Academic Regulations UAB).** Students of the Faculty of Economics and Business, who in accordance with the previous paragraph need to change an evaluation activity date must process the request by filling out an Application for exams' reschedule at https://eformularis.uab.cat/group/deganat_feie/application-for-exams-reschedule

Grade revision process

After all grading activities have ended, students will be informed of the date and way in which the course grades will be published. Students will be also be informed of the procedure, place, date and time of grade revision following University regulations.

Retake Process

"To be eligible to participate in the retakeprocess, it is required for studentsto have been previously been evaluated for at least two thirds of the total evaluation activities of the subject." Section 3 of Article 112 ter. The recovery (UAB Academic Regulations). Additionally, it is required that the student to have achieved an averagegrade of the subject between 3.5 and 4.9.

The date of the retake exam will be posted in the calendar of evaluation activities of the Faculty. Students who take this exam and pass, will get a grade of 5 for the subject. If the student does not pass the retake, the grade will remain unchanged, and hence, student will fail the course.

Irregularities in evaluation activities

In spite of other disciplinary measures deemed appropriate, and in accordance with current academic regulations, *"in the case that the student makes any irregularity that could lead to a significant variation in the grade of an evaluation activity, it will be graded with a 0, regardless of the disciplinary process that can be instructed. In case of various irregularities occur in the evaluation of the same subject, the final grade of this subject will be 0".* **Section 10 of Article 116. Results of the evaluation. (UAB Academic Regulations).**

"The proposed evaluation activities may undergo some changes according to the restrictions imposed by the health authorities on on.campus courses".

COMPREHENSIVE EVALUATION (Art. 265 of the UAB Academic Regulations)

By requesting the comprehensive evaluation the student waives the option of continuous evaluation.

The comprehensive evaluation must be requested at the Academic Management (Gestió acadèmica) of the Campus where the degree/master's degree is taught. The request must be filed according to the procedure and the deadline established by the administrative calendar of the Faculty of Economics and Business.

Attendance :

- *Student attendance is mandatory on the day of the comprehensive assessment. The date will be the same as that of the final exam of the semester as per the evaluation calendar published by the Faculty of Economics and Business and approved by the Faculty's Teaching and Academic Affairs Committee. The duration of the comprehensive assessment must be specified in the characteristics of such activity.*
- *100% of the evaluation evidences must be handed in by the student on the day of the comprehensive assessment.*
- *The evaluation evidences carried out in person by the student on the same day of the comprehensive assessment must have a minimum weight of 70%.*

<i>Evidence Type (1)</i>	<i>Weight in the final assessment (%) (2)</i>	<i>Duration of the activity</i>	<i>Is the activity that corresponds to this evaluation evidence to be carried out in person on the date scheduled for the comprehensive evaluation? (YES/NO) (3)</i>
<i>Exam</i>	<i>100%</i>	<i>5 hours</i>	<i>Yes</i>
<i>TOTAL</i>	<i>100%</i>		

The comprehensive evaluation will consist of a single exam, theoretical and practical, which will include all the material of the subject. The duration of this exam will be 5 hours. The minimum mark to pass will be 5.

Retake Procedure:

"For the retake procedure, no distinction is made between students who have followed the continuous evaluation and those who have opted for the comprehensive evaluation. All will be re-assessed using the same test or evaluation evidence."

Review of the final qualification:

"The review of the final qualification will follow the same procedure as for the continuous evaluation".

Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Additional work and/or test	10%	0	0	2, 3, 11, 12

Additional work or test	2%	0	0	1, 5
Final exam	50%	2	0.08	1, 7, 9, 11
Individual case studies, case resolution and / or practical exercises	10%	0	0	2, 3, 4, 5, 6, 8, 9, 10, 11
Partial exam	28%	1.5	0.06	3, 4, 6, 10
