Assessment

The final grade will be the weighted average of a set of qualifications obtained through:

- a) 20% participation and class exercises
- b) 30% exhibition of a work on one of the topics of the subject
- c) 50% final exam with a theoretical part and a practice

The minimum qualification for half, will be 4 out of 10, in each part of the final exam. If a student does not obtain this minimum mark in the exam, they will be suspended and will be able to recover if the exam is between 3.5 and 3.9.

A student will receive the "Non-evaluable" qualification when it is considered that he has not been able to provide sufficient evidence of evaluation throughout the course.
This qualification will be applied to those students who have participated in less than 25% of the evaluation activities.

The final exam will consist of theoretical questions and practical exercises that will refer to all the subject of the course.

The exam will have a duration of 2 and a half hours and in its realization will not be allowed to consult any type of material. To calculate the average it is necessary to obtain a minimum grade of 4 in the final exam.

The student who has not passed the subject is entitled to a recovery exam as long as the average grade of the continuous assessment is between 3.5 and 4.9. If the student passes the recovery exam the maximum grade that will be obtained is a 5.

Otherwise, the note that will appear in the minutes is the note resulting from the continuous evaluation or the final exam.

This subject does not offer the option for comprehensive evaluation
