#### **Assessment**

This subject does not consider the single assessment system.

# THEORETICAL PART (20% on the final grade) - THREE EVALUATION OPTIONS

A) Continuous assessment with final assessment test:

The evaluation system is organized with the presentation of independent activities (practices, understanding of individual texts, group and/or individual work, classroom presentations, assessment exercises -if applicable-, etc.) plus the final test of continuous assessment of interrelationship and understanding of the topics and theoretical concepts worked on.

The teacher in charge of the subject will establish the list of activities to be carried out, dates and frequency of delivery, assessments, etc. with a percentage of incidence on the grade of 8% to which 12% will be addedcorresponding to the final continuous assessment test.

In order to correctly follow this continuous evaluation system, a minimum of 80% of the activities and tasks is requiredentrusted in the periodicity established by the teacher, before the final continuous assessment test.

Students who do not pass the subject, through the continuous assessment, will be assessed by the single assessment system, without taking into account any of the grades obtained previously.

B) Single assessment: Final exam (all subjects).

Day and time established, according to the academic calendar, in the Center's Official Program.

There will be a single type of final exam, with no difference between students who have not satisfactorily passed the continuous assessment.

#### C) Re-Assessment:

Only students who in the final evaluation have obtained a grade equal to orhigher than 3.5and lower than 5. The grade of this re-evaluation will not exceed 5 as a final grade.

Examination method to be defined by the teaching staff of the subject.

Day and time established, according to the academic calendar, in the Center's Official Program.
