## Content

The training continues its path after the self-awareness work started in class the previous year with the aim to define the students' internship objectives and to support the development of their skills as well as their future career goals.

The practical training consists of 250 internship hours performed in a company within the tourism industry.

The content of this subject includes the internship period, the completion of the memorandum report and the attendance to the workshop, as well as other events and activities organized during the year. After the internship period, the student will have to deliver the Internship Memorandum report, and check that the tutor performance assessment is delivered to the university in time for its evaluation. The survey will be required too.

The practical training pursues the student to get to know the organization, operations, and management basics within the tourism industry, covering areas such as guest services, back-office, and/or the organization and/or promotion of products/services. If necessary, the university will offer a wide range of partner companies for the students to achieve their internship goals. To this extend, we highlight the *Workshop University-Company encounter* that takes place in February, amongst the activities and events that the student must attend in order to pass the subject.

## Methodology

The course will be using three different teaching methodologies:

- Self-evaluation and self-awareness exercises to focus on the student's professional objectives.

- Autonomous work after being in contact with industry professionals, to better understand the business operations and the professional profiles that match each role and type of company within the hospitality industry.
- Learning by doing - practical training at the workplace, duly monitored and tutored by an expert in the field.

In addition, the student will have to adapt to the organization's culture and its values, its internal regulations, policies, and procedures as well as to consider the tutor instructions and the university main guidelines.

Language:

Grau de Turisme: Spanish

Bachelor's degree in Tourism: Main language will be English, while it will be adapted to the needs of each session.

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

## Activities

## Assessment

This subject does not consider the single assessment system.

The evaluation consists of:

- a) The control and monitoring of student attendance at meetings, gatherings and events assigned by the center.
- b) The control and follow-up of the internship performance and the Tutor Evaluation report.
- c) Writing of the Internship Memo Report by the student.

A follow-up by the academic tutor with the student, and/or the company tutor during the internship period may be considered as an additional element.

- The student enrolled in this subject has the obligation to attend the sessions (workshops and other), as well as the seminars, talks and external presentations organized by the institution. For instance, the

University-Company Meeting Workshop.

The student's attendance to the meetings, events and other sessions stipulated by the center has a value of 10% of the total grade.

- The Memo report will represent 50%.
- The Tutor Internship Evaluation tutor constitutes 40%.

**IMPORTANT:** In order to pass the subject, the requirements for the three blocks mentioned above must be met. It is also necessary to underline that the student will have at his/her disposal the key dates of the course, which will act as exam dates for all purposes, and are decisive for the students to be eligible for a final evaluation at a later stage.
