Assessment

The final score will consist of.

40% corresponding to EV1:
Solution of cases and exercises that have been raised in class.

30% corresponding to EV2:
Student folder that collects the evidence of autonomous learning, summary of readings.

30% corresponding to EV3:
Oral presentation of papers/reports.

A student who has obtained a final grade of 5 or higher will be considered approved.

Students who obtain between 3.5 and 4.99 will be able to opt for re-evaluation which will consist of carrying out the complementary or synthesis...
This single evaluation act will consist of the delivery of evidences 1 and 2 and the oral defense of the works/reports (evidence 3) and will consist of the same contents of the continuous evaluation.

The total duration of this single face-to-face evaluation will be approximately 2 hours.

The value of the evidences is the same as that of the continuous evaluation.

The conditions for passing the course, access to the recovery and the recovery test for students who take the sin
