Teachers

Maria Guiomar Stampa Garcia-Ormaechea

Marta Arumi Ribas

Prerequisites

To have attended the following modules of the first year: Techniques of interpretation and contextualization of the discipline; Consecutive Interpreting German-Spanish; Simultaneous Interpreting German-Spanish.

Objectives and Contextualisation

This module aims to consolidate the professional mastery of the two modalities of conference interpretation: consecutive and simultaneous. Also, this module will be dedicated to the preparation of the final exam of the master's degree.

Competences

- Automate strategies for problem solving and decision making under pressure of time.
- Communicate and justify conclusions clearly and unambiguously to both specialist and non-specialist audiences.
- Continue the learning process, to a large extent autonomously.
- Integrate knowledge and use it to make judgements in complex situations, with incomplete information, while keeping in mind social and ethical responsibilities.

- Solve problems in new or little-known situations within broader (or multidisciplinary) contexts related to the field of study.
- Use consecutive interpreting techniques at a professional level.
- Use sight translation techniques at a professional level.
- Use simultaneous interpreting techniques at a professional level.
- Work in a team, generating synergies in working environments involving different people to work in a coordinated and collaborative way.

Learning Outcomes

1. Apply problem-solving strategies in consecutive interpreting.
2. Apply problem-solving strategies in simultaneous interpreting.
3. Automate strategies for problem solving and decision making under pressure of time.
4. Be able to handle the simultaneous interpreting booth and its equipment.
5. Communicate and justify conclusions clearly and unambiguously to both specialist and non-specialist audiences.
6. Continue the learning process, to a large extent autonomously.
7. Demonstrate a capacity for physical and mental resistance and stress management derived from the specific characteristics of consecutive interpreting.
8. Demonstrate a capacity for physical and mental resistance and stress management derived from the specific characteristics of simultaneous interpreting.
9. Efficiently apply problem solving strategies in sight translation.
10. Integrate knowledge and use it to make judgements in complex situations, with incomplete information, while keeping in mind social and ethical responsibilities.
11. Solve problems in new or little-known situations within broader (or multidisciplinary) contexts related to the field of study.
12. Use new technology applied to the professional practice of simultaneous interpreting.
13. Use the voice as a professional work tool.
14. Work in a team, generating synergies in working environments involving different people to work in a coordinated and collaborative way.

Content

Consecutive interpretation exercises of up to 6-7 minutes, and general and specialized topics

Simultaneous interpretation exercises of up to 30 minutes, and general and specialized topics

Methodology

Directed activities:

-Practical sessions

Supervised and autonomous activities

-Autonomous Practice

-Tutorials

-Seminars

Autonomous Practice

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.

Activities

Title	Hours	ECTS	Learning Outcomes
Type: Directed			
Directed	27.5	1.1	9, 1, 2, 3, 7, 8, 10, 11, 5, 6, 4, 14, 13, 12
Type: Supervised			
Supervised	25	1	9, 1, 2, 3, 7, 8, 6, 4, 14, 13, 12
Type: Autonomous			
Autonomous	95.5	3.82	9, 1, 2, 3, 7, 8, 6, 4, 14, 13, 12

Assessment

This module is evaluated through a final exam, which will consist of the two tests previously specified.

The final exam is evaluated by a committee composed of the master's trainer's as well as other active interpreters from the collaborating European institutions and freelance interpreters from the private market.

Students may retake or compensate for failed or missed assessment activities provided that those they have actually performed account for at least 66.6% (two thirds) of the final mark and that they have a weighted mark of 3.5 or over. Students may not retake assessment activities in which they are found to have engaged in misconduct (plagiarism, copying, personation, etc.).

When publishing final marks prior to recording them on transcripts, lecturers will inform students, in writing, of the procedure to follow to retake or compensate for assessment activities. Lecturers may set one assignment per failed or missed assessment activity or a single assignment to cover a number of such activities.

In the case of retaking or compensating for an activity, the highest final mark that can be obtained is 5. If the assessment activities a student has performed account for 25% or less of the subject's final mark, their work will be classified as "not assessable" on their transcript.

Students who engage in misconduct in an assessment activity will receive a mark of 0 for the activity in question. Misconduct in more than one assessment activity will result in a final mark of 0 for the module.

Single assessment

This module may be assessed under the single assessment system in accordance with the terms established in the academic regulations of the UAB and the assessment criteria of the Faculty of Translation and Interpreting.

Students must make an online request within the period established by the faculty and send a copy to the teacher responsible for the subject, for the record.

On the day of the single assessment, teaching staff will ask the student for identification, which should be presented as a valid identification document with a recent photograph (student card, DNI/NIE or passport).

Single assessment activities

The single assessment will consist of the final exam described in the previous section. The final qualification of the subject will be established according to the following percentages:

Consecutive interpreting: 50%

Simultaneous interpreting: 50%

Grade revision and resit procedures for the module are the same as those for continual assessment. See the section above in this study guide.

Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Consecutive Interpreting German-Spanish	50%	1	0.04	1, 3, 7, 10, 11, 5, 6, 13
Simultaneous Interpreting German-Spanish	50%	1	0.04	9, 2, 3, 8, 4, 14, 13, 12
