Prerequisites

There are no prerequisites

Objectives and Contextualisation

The External Practices aim to:

- Give the student the opportunity to transfer both theoretical knowledge and practical content studied and to enter the professional world at the end of the program with a minimum of experience.
- Allow entities to collaborate in the training of future professionals, contribute to realistically introduce the knowledge that the development of tasks requires in the training of students.
- Perform training actions developed by a student within any public or private, national or international entity related to the sports world, with the objective of applying and complementing the acquired training,
- Bring the student closer to the business reality in which he will practice as a professional
- Help the student to develop skills that favor their incorporation into the labor market.
- If the internships are carried out outside the Spanish state, the student must take out a practical and civil liability insurance that covers the entire internship stay. Said insurance must be sent to the internship department two weeks before the internship start date for its corresponding validation.

Likewise, all internship agreements must contain an official digital signature of both the student and the collaborating company.

Learning Outcomes

1. CA13 (Competence) Apply academic knowledge acquired during the master's degree to specific real-world challenges in a company or organisation in the sports sector.
2. CA14 (Competence) Propose innovative solutions related to (intra)entrepreneurship in businesses and organisations in the sports sector.
3. KA20 (Knowledge) Identify the main elements of the labour market in the sports sector, as well as its specificities.
4. SA30 (Skill) Apply what you have learned from the master's degree's compulsory subjects to a professional setting when carrying out the work placement.
5. SA31 (Skill) Apply a work methodology that is appropriate to the professional circumstances in question.
6. SA32 (Skill) Propose improvements for sports management processes, including those related to aspects of finance and marketing.

Content

The External Practices aim to give the student the opportunity to transfer both theoretical knowledge and practical content studied and to enter the professional world at the end of the program with a minimum of experience. Likewise, the internship program allows the entity to collaborate in the training of future professionals, contributing to realistically introduce the knowledge that the development of tasks requires in the training of students.

Methodology

Online modality

In the case of the online modality, the methodology will be adjusted in order students can achieve all the learning outcomes specified in this guide and at the same time develop the skills and abilities of the subject. To this end, the resources available in the modle classrooms will be optimized to maximize student involvement and motivation (forums, debates, simulation games, case studies, online presentations, etc ...)

Annotation: Within the schedule set by the centre or degree programme, 15 minutes of one class will be reserved for students to evaluate their lecturers and their courses or modules through questionnaires.
