## Assessment

### Continuous Assessment Activities

Title	Weighting	Hours	ECTS	Learning Outcomes
Classroom practices	30%	4.5	0.18	1, 7, 4, 10
Delivery of a paper	20%	0	0	1, 2, 3, 5, 6, 8, 7, 4, 9, 10, 11
Exams	50%	3	0.12	1, 3, 6, 8, 10

Continuous assessment:

- 50% Two scheduled partial written tests (25% + 25%): may include synthesis questions, comments on texts and other classroom documents at moodle (charts, graphs, maps, images...), class or course bibliography.
- 30% Classroom practice (comments on maps, texts, course readings...).
- 20% Completion of papers, essays, reviews or summaries, with a specific due date.

Class practices do not require a schedule or prior notice of completion. The practices not carried out due to lack of attendance of the student cannot be recovered. The student who does not exceed the grade of 3.5 points in the weighting of all the activities of continuous evaluation scheduled throughout the course will be graded with a Not Assessable, and will not be able to present himself/herself to the recovery.

Single evaluation: It will consist of a written test (40% of the grade); oral test (30% of the grade); and a course paper (30% of the grade). The written test and the oral exam will take place at the same session. The recovery

of the single evaluation will be carried out in the same way as the continuous evaluation (same test, same day and time and classroom). The student who does not pass the grade of 3.5 points in the weighting of all the evaluation activities will be graded with a Not Assessable, and will not be able to take the recovery.

In case the student performs any irregularity (plagiarism, copying, non-referenced use of AI...), which may lead to a variation of the grade of an evaluation act, the evaluation act will be graded with 0. In case of two irregularities in the acts of evaluation of the same subject, the final grade of this subject will be 0 (Suspended), regardless of the disciplinary process that may be instituted.

The recovery will consist of a comprehensive examination of the subject matter and will be held on the official dates established by the Faculty. In no case, the recovery may be considered as a means to improve the grade of students who have already passed the subject in the normal process of continuous evaluation. The maximum grade that can be obtained in the recovery is 5.0 (Pass).

In accordance with the guidelines of the coordination of the degree in History, to the written tests and coursework of the subject a regulation on spelling and syntax correction is applied. The penalty will be 0.2 points for each fault committed on the final grade, up to a maximum of three points deducted. Repeated mistakes may be deducted.

At the time of completion/delivery of each evaluative activity, the faculty will inform (classroom moodle, institutional email) of the procedure and date of revision of grades.

Particular cases of follow-up of the subject will be taken into account and will receive a specific treatment, especially the students included in the PIUNE program.
