- The evaluation activities will be scheduled throughout the academic year. The dates of realization of the tests in the classroom and delivery of works and reviews will be communicated to the students with sufficient advance. The teacher will establish a specific schedule of tutorials to proceed with the comment of the evaluation activities carried out.

- Reviewing: On carrying out each evaluation activity, lecturers will inform students (on Moodle) of the procedures to be followed for reviewing all grades awarded, and the date on which such a review will take place.

- The recovery will consist of a global examination of the subject matter and will be held on the official dates established by the Faculty. In any case may recovery be considered as a means of improving the qualification of students who have already passed the subject in the normal process of continuous assessment. Only written exams can be retaken.

\* Note: In the event of a student committing any irregularity that may lead to a significant variation in the grade awarded to an assessment activity, the student will be given a zero for this activity, regardless of any disciplinary process that may take place. In the event of several irregularities in assessment activities of the same subject, the student will be given a zero as the final grade for this subject.

On carrying out each evaluation activity, lecturers will inform students (on Moodle) of the procedures to be followed for reviewing all grades awarded, and the date on which such a review will take place.

\*\*\* This subject/module incorporate single assessment:

Synthesis exam - 60%

Research work - Methodology, bibliography, archive, research proposal - 20%
