Prerequisites

This course has no prerequisites.

Objectives and Contextualisation

An approach to the study of the representations of music in the visual arts.

Objectives:

- To know the main research currents in musical iconography.
- To know the main cataloguing systems applied to musical iconography.
- To know how to analyse and interpret iconographic representations from different points of view (artistic, symbolic, organological...) according to the different historical eras.

Competences

Musicology

- Identify and compare the different channels of reception and consumption of music in society and in culture in each period.
- Recognise the role of music in current society, its function in performances, its relationship with audio-visual culture, technology and informatics, and with leisure and cultural enterprises.
- Relate concepts and information from different humanistic, scientific and social disciplines, especially the interactions which are established between music and philosophy, history, art, literature and anthropology.
- Students must be capable of applying their knowledge to their work or vocation in a professional way and they should have building arguments and problem resolution skills within their area of study.
- Students must be capable of collecting and interpreting relevant data (usually within their area of study) in order to make statements that reflect social, scientific or ethical relevant issues.

- Students must be capable of communicating information, ideas, problems and solutions to both specialised and non-specialised audiences.
- Students must have and understand knowledge of an area of study built on the basis of general secondary education, and while it relies on some advanced textbooks it also includes some aspects coming from the forefront of its field of study.

Assessment activities:

- Exam on the general contents of the course. Global weight in the final grade: 45%.

- Practical exercise of cataloguing of musical iconography (with the IcMuC database). Global weight in the final grade: 20%.
- Written and oral presentation (thematics to be determined). Global weight in the final grade: 25%.
- Participation in class. Global weight in the final grade: 5%.
- Class attendance - It will only be taken into account if attendance is equal to or greater than 80%. Global weight in the final grade: 5%.

At the time of each evaluation activity, the teacher will inform the students (Moodle) of the procedure and the date of review of the grades.

Re-evaluation: On the date of re-evaluation set by the Faculty, the student who has not passed the exam on the general contents of the course may only request to be re-evaluated for this exam (the weight of which represents 45% of the final grade).

Not assessed: The student will receive the grade of "Not assessed" provided that he has not delivered more than 30% of the evaluation activities.

Very important: In the event that the student commits any irregularity that may lead to a significant variation in the grade of an evaluation act, this evaluation act will be graded with 0, regardless of the disciplinary process that may be instructed. In the event of several irregularities in the evaluation acts of the same subject, the final grade of this subject will be 0.

Single Assessment: In the event that the student wants to apply, he/she will have to carry out the following activities on the date that will be published on the Virtual Campus:

1. Exam on the general contents of the course (45%)
2. Practical exercise of cataloguing of musical iconography (with the IcMuC database) (25%)
3. Oral presentation (thematics to be determined) (30%)
