CONTINUOUS ASSESSMENT

Assessment consists of two exams and two assignments.

The exams will be assessed based on three criteria:

- Faithfulness of the interpretation/sight translation to the original (no distortions, omissions or additions).
- Quality of the student's oral presentation.
- Appropriateness of the student's level of oral expression to the text and its intended audience.

Students may retake assessment activities they have failed or compensate for any they have missed, provided that those they have actually performed account for a minimum of 66.6% (two thirds) of the subject's final mark and that they have a weighted average mark of at least 3.5.

Students may not retake assessment activities in which they are found to have engaged in misconduct (plagiarism, copying, personation, etc.).

The lecturer will inform students of the procedure involved, in writing, when publishing final marks prior to recording them on transcripts. The lecturer may set one assignment per failed or missed assessment activity or a single assignment to cover a number of such activities. Under no circumstances may an assessment activity worth 100% of the final mark be retaken or compensated for.

If retaking an assessment, the maximum mark for the subject will be 5.

In the event of the assessment activities a student has performed accounting for just 25% or less of the subject's final mark, their work will be classified as "not assessable" on their transcript.

Students who engage in misconduct (plagiarism, copying, personation, etc.) in an assessment activity will receive a mark of "0" for the activity in question. In the case of misconduct in more than one assessment activity, the students involved will be given a final mark of "0" for the subject.

When publishing final marks prior to recording them on students' transcripts, the lecturer will provide written notification of a date and time for reviewing assessment activities. Students must arrange reviews in agreement with the lecturer.

All information on assessment, assessment activities and their weighting is merely a guide. The subject's lecturer will provide full information when teaching begins.

SINGLE ASSESSMENT

This subject may be assessed under the single assessment system in accordance with the terms established in the academic regulations of the UAB and the assessment criteria of the Faculty of Translation and Interpreting.

Students must make an online request within the period established by the faculty and send a copy to the teacher responsible for the subject, for the record.

Single assessment will be carried out in person on one day during week 16 or 17 of the semester. The Academic Management Office will publish the exact date and time on the faculty website.

On the day of the single assessment, teaching staff will ask the student for identification, which should be presented as a valid identification document with a recent photograph (student card, DNI/NIE or passport).

The final grade for the subject will be calculated according to the following percentages:

1. Sight translation exam (30%)
2. Group project: Role play (15%)
3. Dialogue interpreting exam (40%)
4. Collection of self-assessment forms (15%)

Grade revision and resit procedures for the subject are the same as those for continual assessment. See the section above in this study guide.
