CONTINUOUS ASSESSMENT

To show the progress they have made, students will have to submit recordings and perform exercises.

Assessment will be carried out through three on-site tests.

Assessment criteria:

- Integrity of the original speech (no omissions, no added information).
- Accuracy of interpreting (no distortion of the original message).
- Quality of expression.
- Appropriateness to the speech and the audience.

Students may retake assessment activities they have failed or compensate for any they have missed, provided that those they have actually performed account for a minimum of 66.6% (two thirds) of the subject's final mark and that they have a weighted average mark of at least 3.5.

Students may not retake assessment activities in which they are found to have engaged in misconduct (such as plagiarism, copying, impersonation).

When publishing final marks prior to recording them on students' transcripts, the lecturer will provide written notification of a date and time for reviewing assessment activities. The lecturer may set one assignment per failed or missed assessment activity or a single assignment to cover a number of such activities. Under no circumstances may an assessment activity worth 100% of the final mark be retaken or compensated for.

In the case of retaking an assessment activity, the highest mark that can be obtained is 5.

Classification as "not assessable" In the event of the assessment activities a student has performed accounting for just 25% or less of the subject's final mark, their work will be classified as "not assessable" on their transcript.

Students who engage in misconduct (plagiarism, copying, impersonation, etc.) in an assessment activity will receive a mark of "0" for the activity in question. In the case of misconduct in more than one assessment activity, the students involved will be given a final mark of "0" for the subject.

The lecturer will specify, in writing, a day and time for reviewing assessment activities when issuing final marks.

All information on assessment, assessment activities and their weighting is merely a guide. The subject's lecturer will provide full information when teaching begins.

SINGLE ASSESSMENT

This subject may be assessed under the single assessment system in accordance with the terms established in the academic regulations of the UAB and the assessment criteria of the Faculty of Translation and Interpreting.

Students must make an online request within the period established by the faculty and send a copy to the lecturer responsible for the subject, for the record.

Single assessment will be carried out in person on oneday during week 16 or 17 of the semester. The Academic Management Office will publish the exact date and time on the faculty website.

On the day of the single assessment, teaching staff will ask the student for identification, which should be presented as a valid identification document with a recent photograph (student card, DNI/NIE or passport).

Single assessment activities

Single assessment will include a minimum of three assessment activities of different types, as stated in the assessment guidelines.

Grade revision and retake procedures for the subject are the same as those for continual assessment. See the section above in this Study Guide.
